The post-pandemic era

The post-pandemic era has disrupted labor markets across the world, ushering in both new challenges and opportunities to businesses and employees who face an evolving workplace marked by the **accelerated trends of remote and hybrid work**.

Balancing your time when working outside of a traditional office space is part-art, part-science. ThinkVision mobile monitors offer you the best display solutions to **extend your screen real estate, increase your productivity and release your creativity** whether you are working in the office or remotely.

Lenovo mobile monitors are designed with powerful connectivity for **go-anywhere work, ensuring comfort in confined or public spaces and lightening the load you need to carry**.

Made to be on-the-go

Prioritize self-care with ergonomic design

Advanced connectivity and productivity

Sustainable technology for a greener world

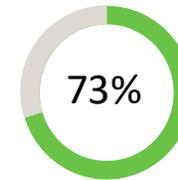

Inspire creativity

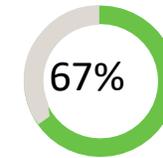

Success in a post-pandemic workplace

There may no going back to the pre-pandemic workplace, but organizations and individuals are discovering new ways of building success in a post-pandemic world. A hybrid workplace model has given a **sense of hope amidst a rapidly shifting landscape**, reaping the benefits of both remote and in-person work.

Want flexible work

Want more in-person work¹

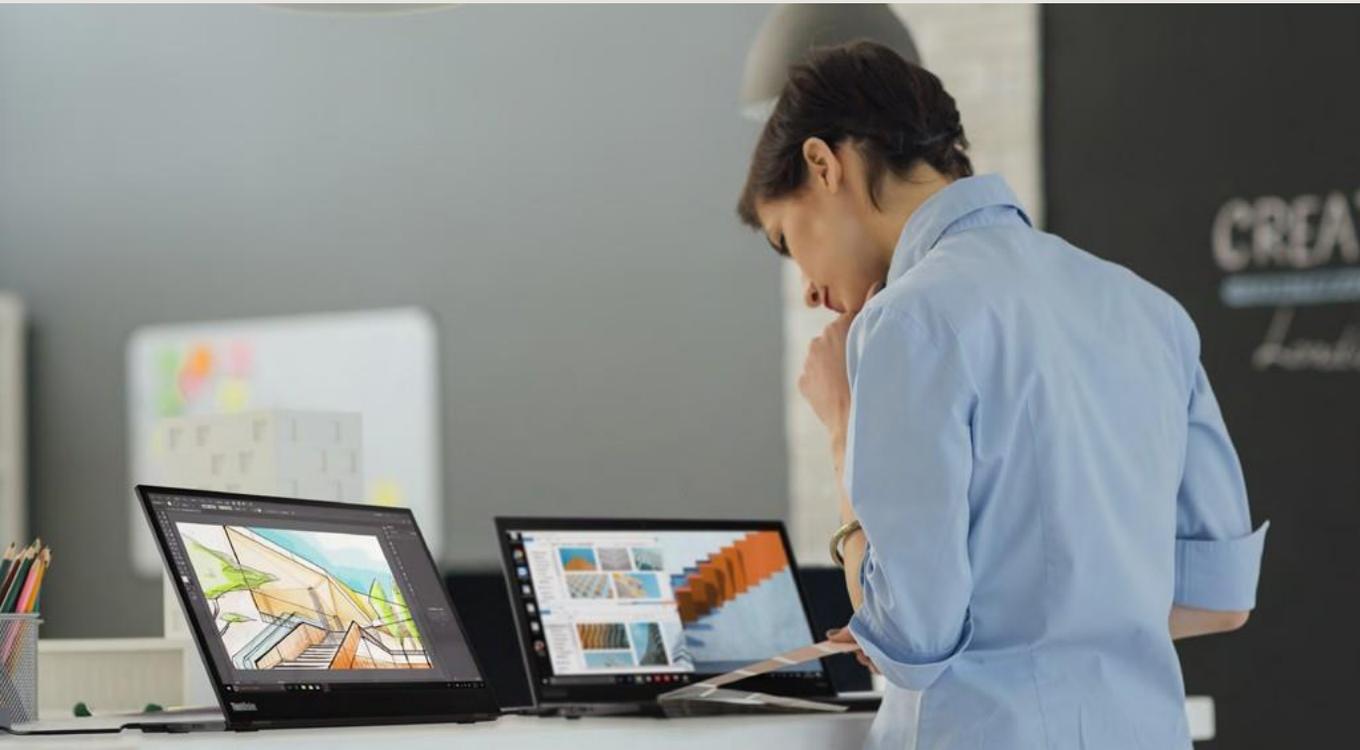

Say remote work has been successful²

Prefer a hybrid arrangement³

The flexibility of a hybrid workplace can go a long way even outside of the hurdles the pandemic has brought, allowing for employees to find the right work-life blend depending on their needs and responsibilities.

1. [Microsoft](#)
2. [Pwc](#)
3. [Smartway2](#)

A win-win opportunity

A hybrid workplace provides several benefits to an **ever-growing remote workforce**¹:

Reduced operation costs

Increased productivity

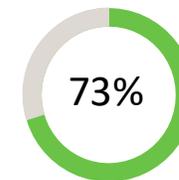

Enables distributed teams

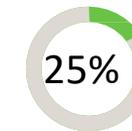

Helps employees financially

Workers want more flexibility in the structure of their days to create a better work-life blend. Businesses in turn are being rewarded for their flexible work policies, **reporting higher levels of productivity and performance.**

Workers believe **productivity has increased** as a result of greater flexibility²

Drop in **employee turnover** from companies that allow flexible working³

Employees are reporting **higher levels of happiness** due to new remote working trend⁴

1. [Vantagecircle](#)

2. [CNBC | SurveyMonkey Workforce Survey](#)

3. [Flydesk](#)

4. [IWG Global Workplace Survey](#)

Multi-Gen workforce drives new expectation for IT demand

A dramatic shift in the modern workplace is under way as a uniquely **multi-generational workforce** comprising Gen X, Gen Y, and Gen Z is filling the corporate ranks, with **Gen-Y Millennials** now representing the largest generation.

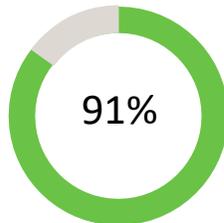

As technology natives, many are used to a digital landscape that is 'always on,' and thrive on **diversity and balance**. While the nature of business grows more complex, there is a universal demand for a variety of benefits and practical solutions to further enable a **productive, flexible, and conscientious workforce**.

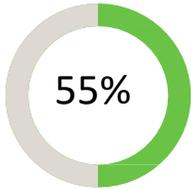

Workforce will be **considered digital natives** by 2025¹

Millennials will make up 75% of the workforce by 2030²

Generation Z cite **technology** as the most important factor when choosing a job³

Generation Z use their **smartphones** for five or more hours daily⁴

Supporting a **digital, work-from-anywhere culture** is crucial for enterprises adjusting to a new work dynamic heavily influenced by the priorities, values, and leadership style of the new generations.

1. [Citrix](#)
2. [Deloitte](#)
3. [Global Web Index](#) 4. [Global Web Index](#)

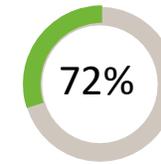

Empower the work-from-anywhere workforce

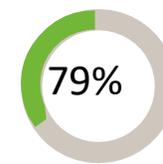

Success in flexible working is only possible with the **right technology**.

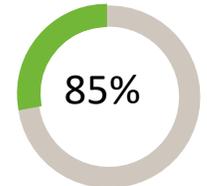

The **global mobile workforce** is expected to reach 1.87 billion workers by 2021¹

Companies have a **Bring-Your-Own-Device friendly policy** and allow employees to bring their own devices to work²

Employees use **smartphones** for some work³

Workers don't have the **right resources** to take care of their tasks efficiently⁴

Flexible work requires just what it implies – **freedom to move, the ability to adapt on-the-go**, and create without being tethered to an outlet or desk station.

ThinkVision M Series Mobile Monitors are designed with advanced technology and **user-centric design that put flexibility first**. By offering a simple yet multi-purpose experience, Lenovo mobile monitors enhance precision and bring your productivity to the next level – **wherever your business takes you**.

1. [IBM](#)
2. [Tenable](#)
3. [Lenovo](#)
4. [Tinypulse](#)

Clunky setups, tangled cables, and outdated monitors are counter-productive and can negatively impact long-term health and efficiency, as well as limit the ability to be creative on-the-go.

Seven challenges for flexible working

Time and tide wait for no one – and the **change in the workplace** is already here. But employees now face new challenges that hinder productivity and creativity.

Eye strain over long hours of work

Carrying **multiple, heavy devices** and adaptors to serve different functions

No tools to promote **creativity and precision** through touch

Limited **desktop space** at home or when working remotely

Getting all devices **powered** and functioning simultaneously

Complex **setup** hinders connectivity with multiple devices

Limited **viewing space** makes it difficult to multitask

ThinkVision M series mobile monitor

Portable display solutions to
empower flexible working
at home or on-the-go

Double your screen space for
double productivity

Extreme light-weight and ultra-
thin portability

10-point touch screen to unleash
creativity and precision

Flexibility for spontaneous work
from anywhere

Easy set-up and powerful
connectivity

Power pass-through to stay
charged from anywhere

Eye-care Technology with TÜV
Rheinland Low Blue Light

Do more on-the-go

ThinkVision Mobile Monitors are designed to help users **on-the-go achieve an optimal level of productivity, no matter where they are.**

EXTREME PORTABILITY WITH ULTRA-LIGHT, ULTRA-SLIM DESIGN

1. Ultra-slim monitor head: **4.4mm – 6mm thickness**
2. Ultra-light weight: Starting from **less than 600g** in mass¹
3. 14-inch or 15.6-inch options panel size fits into bags or cases **made for carrying** laptops

CLUTTER-FREE WORKSPACE

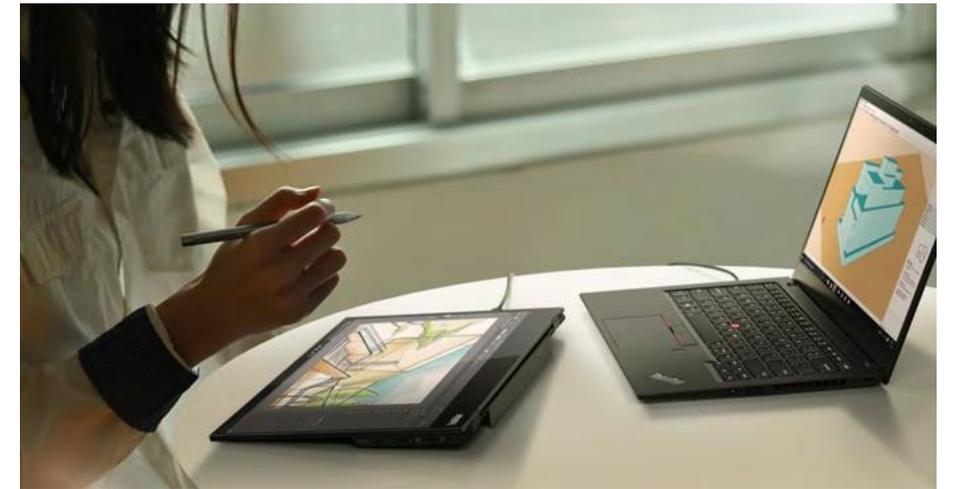

4. Plug-in and go with **USB-C one cable solution** — no need for extra cables, chargers, connectors
5. Almost non-existent bezels **maximize display** in an unbelievably small footprint
6. **L-shaped dongle** for vertical deployment and better cable management²

Leaders in advanced monitor solutions

ThinkVision M Series Mobile Monitors are industry-leading **portable monitors** that provide extensive and future-ready **connectivity** options to optimize productivity throughout the workday.

ThinkVision Mobile Monitors offer innovative dual-USB Type-C capabilities to **extend the display of a laptop, smartphone, or desktop with a single plug** - making it easy to move around with and improve the overall quality of work wherever you are.

Powerful connectivity and productivity

ThinkVision M Series monitors are built with an innovative **dual USB-C design** to give users advanced connectivity and powerful tools for productivity.

¹ When the monitor is connected with an AC/DC adapter, being charged

² Screen extension function available when ThinkVision Mobile Monitors are connected with a compatible USB-C laptop or when the smartphone's OS supports

Connect seamlessly with not only the Lenovo Think family laptops but also with other compatible brands of notebooks and smartphones.

-  **All mobile monitors come with dual USB Type-C ports for power, and media transfer**
-  **Innovative power pass-through capability to supply power to the monitor and the compatible USB-C device connected, simultaneously via one AC/DC adapter¹**
-  **Seamlessly duplicate or extend your screen — be it your smartphone or laptop²**

Inspire creativity

ThinkVision Mobile Monitors give creators **full control of both the canvas and the brush** — to bring their inspirations and visions to life.

Crystal clear display

- * Full-HD 1080ps, IPS panel display for crisp, accurate visuals
- * Two options for screen size (14-inch to 15.6-inch)
- * Match your notebook size and expand your viewing space by up to 2 times.
- * Brightness - up to 300 nits
- * M14t and M14 offer up to 72% NTSC Color Gamut*
- * Glossy touch screen or anti-glare display*

Deliver only as you can

- * Intuitive 10-point touchscreen interface*
- * Active digital pen with 4096 levels of pressure – unleash the freedom to design, animate, present, sketch, or annotate with precision*
- * OSD Menu

Seamless viewing experience

- * Auto-rotation gravity sensors to view any content seamlessly*

*Certain features and specifications may vary based on different models of ThinkVision Mobile Monitors

Prioritize self-care and an easy user experience

ThinkVision Mobile Monitors offer unmatched user comfort and ergonomic design that **prioritize user health**.

Eye care technology

Advanced eyecare technology certified with TÜV Rheinland **Low Blue Light** reduces blue light emission **without color distortion** of the display, to minimize eye strain and maximize comfort over long hours of usage.

Height adjustable foot and stand

The monitor comes with the option to tilt the screen **between -5° and 90°**, and height adjustment up to 11mm – so you can get the **perfect viewing angle**.

The perfect desktop addition

VESA Mount makes it possible to place the device on **virtually any surface**, including a wall or a desk.

Software meets hardware

ThinkVision Mobile Monitors are compatible with **new ThinkColour display software** to bring an enhanced and optimized user experience that boosts productivity and efficiency.

Wide range of compatibility

ThinkVision Mobile Monitors are also **compatible with a wide range of devices** and systems including PCs and smartphones.

Promise for a Greener World

From 2019 to 2020, 11,316 tons of recycled plastics were used in manufacturing ThinkVision Monitors.

85%

Plastic resins are categorized as recycled plastics.

90%

A selected scope of our products has been shipped with green packaging with up to 90% recyclable materials.

80%

Closed loop materials sourced from end-of-life information technology equipment (ITE) and products.

100%

Our products are certified with UL greenguard gold, which has a high standard on the emission of harmful airborne chemicals (VOCs).

From 2015 to 2020, 50,000,000 monitors containing recycled plastics were shipped.

Vision for a sustainable future

Lenovo is a pioneer in Environmental, Social, and Corporate Governance (ESG) and is **dedicated to creating a greener, more sustainable world.**

ThinkVision M Series Mobile Monitor has been designed and developed with the same approach in mind and is certified with up to **EPEAT Silver** and **TCO 8.0**. To help end users build a healthy indoor environment, ThinkVision Mobile Monitors are **UL GREENGUARD** certified and built using **recyclable, and human-friendly materials that are mercury-, arsenic- and Cd-free**. The USB-C Cable in-the-box is also **PVC free**.

Even the packaging is made with sustainability in mind, by using **up to 80% recycled materials**. The M Series utilizes a **space-saving packaging design** that helps reduce overall carbon emission while its upgraded packaging presents an enhanced unboxing experience.

ThinkVision M15

Lightened, enlightened, extended productivity. **Lighten the load doing business on the road.**

Make productivity portable with ThinkVision M15. Its stunning form factor is meticulously designed to expand and match the screen real estate of multiple kinds of laptop, this light and slim 15.6-inch FHD resolution mobile monitor weighs just 860g¹ while its head measures a mere 6 mm thick, making it perfect for multi-screen multitasking like spreadsheets in an airport lounge or sharing a presentation with a prospect in a restaurant.

Equipped with two identical USB Type-C² ports, the monitor gives users indispensable Power Pass Through capability. That means they can power both the monitor and the laptop with a single power adapter, up to 65W³, plugged into one port with a USB Type-C² cable connected to the computer from the other port. Or they can simply power M15 from the laptop using just one USB Type-C² connection.

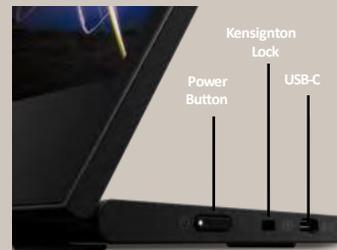

With safety ever in ThinkVision's minds, the M15 mobile monitor also comes equipped with TÜV Rheinland certified Low Blue Light technology, which protects users from eyestrain caused by certain frequencies of blue light. Simply turn it on with the press of a button.

Features of Thinkvision M15 monitor

Lighter. Slimmer. Winner.

M15 does the heavy lifting of your productivity in a surprisingly light package. Just 860g¹ and measuring no more than 6 mm through its head, this considerately crafted mobile monitor doubles users' screen space with a 15.6-inch, In-Plane Switching panel, FHD display, the perfect resolution for a monitor of its size. With expanded screen real estate, work such as comparing detailed spreadsheets is made so much easier, multitasking is a breeze and colleagues or salespeople can mirror or extend their screen to give prospective clients a presentation on their own screen, face to face, even in public spaces. Thanks to M15's integrated, fold-out stand with height adjustment, the monitor will raise up to align with a laptop for the most seamless user experience.

Stay in charge with Power Pass Through

M15 handles power with elegance and simplicity. Its true one-cable design solution means it can run off a single USB Type-C² cable that delivers images, audio and data, as well as power, to the monitor from a connected laptop for supreme convenience on the road. But add to that its second, identical USB Type-C² port and its invaluable Power Pass Through function allows both the monitor and the laptop to be charged from a single USB Type-C² power plug. On top of enjoying this convenient design for power, users can also connect flash disks, earphones or other compatible USB Type-C² devices through the monitor's second USB Type-C² port when it's not in use.

XS size, XL UX

Taking M15 on the road may mean more hours of operation. With that in mind, it's thoughtfully designed to care for users' eyes by protecting them from eye fatigue and strain caused by harmful, high-energy blue-wavelength light. This is done with TÜV Rheinland Low Blue Light certified technology that can be switched on in an instant and left on for as long as users choose. Thought has even been given to the unboxing experience, with newly designed, easy-opening packaging that takes just seconds to have the monitor in users' hands. To keep its already modest weight down, M15's protective sleeve is lightweight, modern and elegant. And it even mounts to the wall by a VESA 100 mm fixture for a more stable solution when users spend time in the office.

ThinkVision M14

Portable USB-C monitor. Crafted for improved productivity.

The ThinkVision M14 is an ultraslim and ultralight mobile monitor. Its 14-inch screen helps you extend your workspace comfortably no matter where work takes you. Compatible with notebooks of any screen size that come with an advanced USB Type-C port*,

the ThinkVision M14 can either extend or duplicate your notebook display with one plug. The USB Type-C ports on either side allow both left- and right-handed users to work efficiently, and the ergonomic design enhances user experience. Packed with impressive portability, connectivity, and flexibility features, the ThinkVision M14 is ideal for mobile productivity.

Features of Thinkvision M14 monitor

Achieve targets on the go

The ThinkVision M14 boosts productivity with its thin and light form factor. Weighing 598g*, this 4.4mm sleek mobile monitor enables easy portability. The stylish design with a Full-HD, IPS display provides vivid lifelike visuals, ensuring you never miss out on any detail. With a brightness of 300 nits, the ThinkVision M14 offers a stunning visual experience while consuming content online.

Experience advanced connectivity

Two innovative USB Type-C ports on either side of the monitor make connectivity effortless. These ports support both power and video delivery simultaneously from a single port. The ThinkVision M14 also offers a 'power pass through' design that powers the mobile monitor by an adapter and charges the notebook at the same time. This feature is suitable for smartphones or notebooks with one USB Type-C port**. The ambidextrous design of this monitor enhances user comfort.

Work the way you like

The ThinkVision M14 with its admirable flexibility is built for varied job roles. With a tilt angle of -5°~90°, you can position your monitor in a way that suits your style. Compare content with ease even as you use laptops of different screen sizes with the ergonomic height adjustable foot. Also, you can wall mount your monitor effortlessly with mounting support for a hands-free viewing experience. The advanced low blue light technology minimizes eye strain, making extended working hours easy.

ThinkVision M14t

Portable with a touch of inspiration.

Scale new heights of productivity, flexibility, and style with a touch-enabled mobile monitor. The slim and light ThinkVision M14t is a 14-inch Full-HD display that provides you with an extra screen whenever you need it. With 10-point touch functionality, enjoy the freedom to design, animate, present, and annotate on an intuitive monitor interface. More than just a display, the M14t comes with a pressure-sensitive active pen for precise sketching and easy navigation, as well as a customized sleeve and an L-shaped dongle for vertical deployment and better cable management. This compact USB-C Hub monitor with two USB-C ports works seamlessly with Lenovo Think family laptops as well as other compatible USB-C devices, like your smartphone. Connect, present, pitch, and create with conviction on the M14t – at the office or on the go.

Features of Thinkvision M14t monitor

See more everywhere you go

Built for mobile professionals, the M14t's 14-inch Full-HD IPS panel display with super-narrow bezels ensures crisp and accurate visuals with impressive viewing angles. This sleek ultra-portable monitor with tilt function (-5°/90°) and height adjustment stand (up to 11 mm) allows users to work in a comfortable position. With 300 nits brightness and TÜV Rheinland Low Blue Light technology, you can work with minimal eyestrain.

Deliver as only you can

Drag, draw, annotate, and collaborate, no matter where you are. The ThinkVision M14t is 10-point touch-enabled and comes with an active digital pen that supports 4096 levels of pressure, so you can draw and sketch with unmatched precision. Switch your view in no time with auto-rotation sensors and access an intuitive on-screen-display (OSD) menu to make easy adjustments to settings.

Connect better, work easier

Built with an intuitive dual USB-C design, the M14t can duplicate or extend your screen so you're always productive. With data, power, and media capabilities of USB-C, you can create presentations, transfer data, and enjoy the power pass-through function simultaneously to supply power to the M14t and a compatible USB-C device connected to the monitor via one AC/DC adapter*.

Display

Panel Size
14-inch

Screen Dimensions (W x H, mm)
309.31 x 173.99 mm

3-side Super-narrow Bezel In-Plane Switching

Backlight
WLED

Aspect Ratio
16:9

Resolution
1920 x 1080

Pixel Pitch (H x V, mm)
0.1611 x 0.1611 mm

Dot/Pixel Per Inch (DPI/PPI)
157

Viewing angle (H x V @ CR 10:1)
178° / 178°

Response Time (typical)
6ms with OD

Refresh Rate
60 Hz

Brightness (typical)
300 cd/m²

Contrast Ratio (typical)
700:1

Dynamic Contrast Ratio (typical)
3M:1

Colour Gamut
72% NTSC (CIE 1931)

Color Support (typical)
16.7 Million

Color Depth
8bit (6bit + FRC)

Touch Screen
Yes (10point touch display)

Connectivity

Video Signal
2 x USB Type-C Gen1 (DP1.2 Alt Mode)

USB Hub
Yes

USB Upstream
1 x USB 3.1 Gen1 (1 by USB Type-C)

USB Downstream
1 x USB 3.1 Gen1 (1 by USB Type-C)

Auto-rotation Support
Yes

Pen/Digitizer
Yes (with 4096 pressure levels)

Special features

Auto-rotation Support
Yes

Pen/Digitizer
Yes (with 4096 pressure levels)

Power

Power Consumption (Typ./Max)
8W / 9.5W

Power Consumption Sleep/Off Mode
< 0.3W

Power Consumption Switch-off Mode
< 0.3W

ENERGY STAR Power Consumption (Pon/ETEC)
7.22W / 25.5kWh

Power Supply
External (not bundled)

USB Type-C Power Delivery (W)
Up to 65 W

Voltage Required
DC 5 / 9 / 15 / 20 V

Mechanical

Tilt Angle (front/back)
-5° / 90°

Lift (Max range)
11mm

Pivot
-90° / 90°

Mounting Support
Yes (2 screw holes, 100 mm)

Kensington Lock Slot
Yes

Cable Management
Yes

Bezel Color
Raven Black

Bezel Width (side)
5.43 mm

Bezel Width (top/bottom)
5.42 / 30.38 mm

Dimension

Size Packed (D x H x W, mm/ inch)
377.0 x 68 x 267.0 mm
148.43 x 26.77 x 105.12 inches

Size Unpacked w/ Stand (D x H x W, mm/ inch) (Lowest position)
14.0 x 214.3 x 323.4 mm
0.55 x 8.44 x 12.73 inches

Size Unpacked w/Stand (D x H x W, mm/ inch) (Highest position)
14.0 x 226.5 x 323.4 mm
0.55 x 8.92 x 12.73 inches

Weight Packed (kg / lbs.)
1.87 kg / 4.12 lbs.

Weight Unpacked* (kg / lbs.)
0.698 kg* / 1.54 lbs.
