Mobility-first durability for public safety

ThinkPads deliver rock-solid tech to unpredictable environments.

Having the right technology and immediate access to vital information ensures teams can serve the community better. Of government officials surveyed, 51% believe 5G will play an important role in their IT plans over the next year.¹

For first responders, this flexible mobility could mean life or death. To be the heroes their community needs, first

responders need to stay mobile and connected from anywhere with durable equipment, built to withstand in-the-field demands. All of this must also be backed by properly secured devices and services to convey confidential and sensitive information on a moment's notice.

ThinkShield

Protect public workforce data with ThinkShield.

The **ThinkShield** hardware-embedded and security software portfolio is designed on Zero Trust principles, with the Intel vPro[®] platform and Windows 11 Pro OS, to safeguard all the physical layers of a device, building protections for holistic and comprehensive security coverage. You can't be with your devices every minute — but ThinkShield can.

Lenovo recommends
Windows 11 Pro for business.

Lenovo

Reliable solutions for a mobile workforce

Lenovo's range of ThinkPad® devices delivers advanced connectivity features, along with the strength to meet the US Department of Defense's MIL-STD 810G standards, striking the perfect balance of value, mobility, and durability right out of the box.

ThinkPad® T14 with Windows 11 Pro

The ThinkPad T14 laptop is built to perform — anywhere. Powered by up to Intel vPro® with 12th Gen Intel® Core™ i7 processors, Windows 11 Pro, high-speed Intel® Wi-Fi 6E*, and vast amounts of memory, it zips through any task. And with next-gen storage performance, it can take your productivity to new heights.

ThinkPad® X13 with Windows 11 Pro

The ThinkPad X13 lets your teams work from anywhere with a sleek design, all-day battery, and up to Wi-Fi 6E*, 5G, and 4G WWAN** connectivity. Running up to Windows 11 Pro with up to integrated Intel® Iris® Xe graphics, this business laptop can tackle any task.

ThinkPad® X1 Tablet with Windows 11 Pro

Our third-generation ThinkPad X1 ultra-premium, detachable 2-in-1 tablet features an 8th Gen Intel® Core™ i7-8650U processor with Intel vPro® to facilitate seamless productivity. Always stay connected as your teams effortlessly switch between Wi-Fi and mobile broadband when you opt for LTE-A. Intelligent Cooling enables temperature management to optimize battery life and cooling.

¹ Deloitte, "Seven pivots for government's digital transformation," May 2021

* Wi-Fi 6E requires Windows 11 Pro. Operation is dependent on the support of the operating system, routers/APs/gateways that support Wi-Fi 6E, along with the regional regulatory certifications and spectrum allocation.

** Optional WWAN availability varies by region and must be configured at time of purchase; it requires a network service provider.

TruScale is the simplest way to access all solutions.

Lenovo TruScale™ Device as a Service (DaaS) provides a simple, convenient way to access all of our solutions through an as-a-service model. Easily add or remove devices from your plan or pause your service as organization needs change. Free up your budget and improve productivity with the simplicity of one predictable monthly fee.
