# Solutions built for the education space

Classroom technology is evolving at a rapid pace. Today's IT administrators are required to make purchasing decisions that pave the way for continued digital transformation while also maintaining student and network safety, ensuring education continuity, and delivering the functionality educators need on a set budget.

Lenovo and Google have joined forces to offer software and hardware bundles that help schools adapt to this dynamic environment with dependable and budget-smart tools to promote both digital engagement and safety. Additionally, Lenovo delivers end-to-end solutions that help schools maintain, manage, and protect their edtech investments.

These product bundles are designed to empower educators as they help students build confidence in a tech-forward world. In this guide, schools will find the world-class edtech offerings they need to support improved digital proficiency, safety, and learning outcomes for years to come.

**LanSchool gives our teachers the tools to turn a potential distraction into an important one-on-one teaching opportunity. It has transformed how we use digital devices in all of our classrooms.**

Chris Parker, Technology Coordinator

## Technical requirements:

- Compatible with Mac OS, Windows, and Chromebook
- Implemented through cloud-based or local hosting

# Keep students safer online

You are tasked with safeguarding faculty and students in online-learning environments. Your IT teams also needs to protect your institution against viruses, spyware, phishing frauds, and ransomware.

**46%**

of US parents say their child age 11 or younger has encountered inappropriate videos on YouTube<sup>1</sup>

**85%**

of US educators are worried about cyberbullying and other online threats<sup>2</sup>

**\$2 million**

is the median amount stolen from US school districts via phishing attacks<sup>3</sup>

## Protect students, staff, and network

- Protect users from content in over 40 languages – with 10 interface languages.
- Real-time detection picks up dangerous new domains keeping users safer from harmful content online.
- Safeguard your system from viruses, spyware, phishing frauds, and other forms of malicious code.

## Manage devices effectively

- Protection both on-campus and at home.
- Manage one or multiple schools through a single dashboard.
- Customize access to Facebook, Twitter, YouTube, and other social platforms.
- Compliant with regulations required by CIPA, COPPA, the Internet Watch Foundation, and Friendly Wi-Fi.

## Upgrade to enhance protection

- Upgrade to Lenovo NetFilter+ for enhanced student safety.
- Keyword monitoring for digital dangers, including cyberbullying, threats of violence, and suicidal ideation.
- Scheduled, customizable reporting and screen captures for admins.

### Technical requirements:

- Compatible with Mac OS, Windows, and Chromebook
- Integrates with: LDAP, Active Directory, eDirectory, Radius, Captive portal, Microsoft IIS, Authenticated Redirect Portal, and Single Sign On for Google and Microsoft

## Unlock the capabilities of ChromeOS with Chrome Education Upgrade

Chrome Education Upgrade empowers IT to create educational environments for teachers and learners to thrive in, with enhanced management, security, and support capabilities.

IT administrators working in education face the same challenges as other industries: supporting the needs of their end users, while juggling security, scalability, and cost.

Chrome Education Upgrade unlocks the capabilities of ChromeOS and ChromeOS Flex. Creating the freedom for educators to provide exceptional learning experiences for their students, while ensuring security and management at every level.

### ChromeOS upgrades

Transform devices for standardized testing, enable SSO login, and set up automatic re-enrollment.

### Device management

Choose from hundreds of policies to deploy, manage, lock down, and secure devices, all from the cloud-based Google Admin console.

### 24x7 IT admin support

All this, with the added benefit of ChromeOS troubleshooting assistance. Call Google at any time if an issue comes up at no additional cost.

**I would say that we are saving more than 70% of our time on managing the devices. If we were going to do this with another device, we'd have to almost double our staff. We have all of these devices now, but we don't hear people talking about managing them.**
