

Lenovo Chromebook Education Package for students

Lenovo is excited to introduce its new Lenovo Chromebook Education Package, designed for students using the latest Lenovo Chromebooks. This package includes powerful educational tools such as:

Chrome Education Upgrade

Chrome Education Upgrade empowers IT to create educational environments for teachers and learners to thrive in, with enhanced management, security, and support capabilities.

LanSchool

LanSchool classroom management software helps teachers connect with students to create more meaningful online experiences, both in the classroom and remotely.

Lenovo NetFilter

Lenovo NetFilter helps protect students from digital dangers with cloud-based, AI-driven web filtering and keystroke alerts.

Zero touch enrollment

Zero-touch enrollments from Lenovo and Google allow remote deployment and auto-enrollment of Chromebooks. Pre-registered by Lenovo, devices ship directly to your users - ready for use with minimal IT assistance.

CO₂ offset service

Provides a simple and transparent way to give back to the environment by helping customers offset the carbon emissions associated with their Lenovo PC.

Choose your hardware
