Lenovo

ThinkCentre M60q Chromebox Enterprise

Within retail banking centers, across customer call centers, and amid the hybrid financial services workforce, high-performing, secure technology tools are a must.

Ideal for the security-critical financial services industry, the powerful cloud-first ThinkCentre M60q Chromebox Enterprise* delivers on performance, data protection, and flexibility. Plus, with ChromeOS and optional Chrome Enterprise, every production environment is locked down for super-efficient uptime—from anywhere.

*Chromebox Enterprise models come from the factory with the Chrome Enterprise Upgrade, which enables full management and business capabilities. Can also be purchased as a Chromebox without the Chrome Enterprise Upgrade.

1 Powerful, data-crunching computing

Information workers, from financial analysts and marketing professionals to investment professionals and bank managers, require high-performance computing power. The cloud-first ThinkCentre M60q Chromebox Enterprise delivers improved hardware performance, including up to 12th Gen Intel® Core™ i5 processors, more robust memory, and enhanced software for data-heavy workloads. Plus, work-from-anywhere cloud syncing with optional Chrome Enterprise accelerates VDI.

>50%

of ITDMs believe that desktops allow employees to get work done more smoothly.

Lenovo ThinkCentre 2022 Changing Workplace Survey

77%

of ITDMs agree that device configurations should be linked to roles and needs. Desktops are the right choice when large monitors, computing power and speed are critical.
