

SMARTER SOLUTIONS GUIDE

# Discover Lenovo Digital Workplace Solutions

Unlock opportunity for every employee and team with Lenovo's end-to-end solutions, including devices like the ThinkPad® X1 Carbon secured by Windows 11 Pro and powered by Intel vPro®, An Intel® Evo™ Design, built for what IT needs and users want.

Lenovo recommends  
Windows 11 Pro for Business.

Smarter  
technology  
for all

Lenovo

# Smarter brings more choices and the simplicity of one end-to-end partner Together.

IT teams spend valuable resources on security, collaboration technology and devices. Lenovo's end-to-end Digital Workplace Solutions make it easier and smarter, elevating the employee experience.

 **SECURE**

**For a flexible workforce that's as secure as it is engaged, everywhere**

Lenovo partners with you to achieve your biggest-picture vision, starting with solutions that are secure by design.

 **CONNECT**

**For a culture of collaboration where everyone's set up to succeed**

Lenovo removes barriers and creates the conditions for meaningful work, elevating collaboration with advanced technology.

 **MANAGE**

**For a technology ecosystem primed for human-centered innovation**

Lenovo delivers a better work experience to IT and all your employees.

Lenovo recommends Windows 11 Pro for Business.

## The broadest portfolio of end-to-end technology solutions for business

Lenovo provides customized hardware, software, and end-to-end services for any industry—from education and healthcare to engineering and entertainment. We help organizations drive their vision forward and deliver desired business outcomes in key priority areas including security, sustainability and innovation.

Our Digital Workplace Solutions start with devices that simplify remote management like the Lenovo ThinkPad® X1 Nano, powered by Intel vPro®, An Intel® Evo™ Design, built for what IT needs and users want.

## The best partner for IT to drive purposeful innovation

We understand your top IT challenges and the needs of a transformed workforce. Along with your team, we'll work to understand your environment and deliver the right technology: solutions that go together seamlessly, integrate easily and empower every end user.

# Security: Peace of mind powers productivity for all

## Lenovo helps you reclaim time, better align resources and focus on strategic business outcomes

### The challenge

Remote work has changed the landscape, and cybersecurity attacks have rapidly evolved to take advantage, pulling IT decision-makers away from their core mission and strategic initiatives.

Expanded scope of responsibility beyond IT

- + Constantly evolving security concerns
- + Strained financial and human resources
- = **Limited ability to focus on your vision for the enterprise**

### How can Lenovo help?

Our comprehensive solutions simplify vendor selection and management with the peace of mind of Lenovo reliability.

Freeing up time for strategic priorities, vision and innovation

- + Shift in focus from being operational to transformational
- = **Future-ready in terms of business continuity and technology evolution**

### Smarter solutions keep work moving forward

- Lenovo PCs with Windows 11 and powered by Intel vPro® provide an unrivaled business PC solution
- Lenovo ThinkShield
- Lenovo Managed Services

An Evo® Design

Lenovo recommends Windows 11 Pro for Business.

## Take your time back

### 1 month

Operating time lost as a business recovers from a ransomware attack.<sup>1</sup>

### 63%

of IT decision-makers work with a partner to manage IT security.<sup>2</sup>

### 51%

say the #1 benefit is time saved for more strategic projects.<sup>2</sup>

SECURE

# Deploy hardware that works harder for you

## Windows 11 enables new experiences without compromising security

New Lenovo devices with Windows 11 Pro raise the security baseline with requirements built into both hardware and software for protection from chip to cloud. These Secured-core PCs offer simplicity and significant security benefits at the firmware level. Protecting devices at the core with default protections can help secure data and access anywhere.

## Intel helps reduce the attack surface

Intel vPro® with exclusive Intel® Hardware Shield provides hardware-based, multilayered security that helps reduce the attack surface of the PC. They assist in active monitoring against attacks without bogging down productivity. IT can be ready with new hardware technologies to support OS virtualization.

Hardware-backed security features enabled by default	Threats defended against
<ul style="list-style-type: none"> <li>• TPM 2.0 or higher</li> <li>• TPM support</li> <li>• Virtualization-based security (VBS)</li> </ul>	Root of trust attacks
<ul style="list-style-type: none"> <li>• Windows Defender System guard</li> <li>• Hypervisor-protected code integrity (HVCI)</li> </ul>	Vulnerable and malicious drivers
<ul style="list-style-type: none"> <li>• Arbitrary code generation and control flow hijacking protection</li> </ul>	Unverified code execution
<ul style="list-style-type: none"> <li>• Kernel DMA protection</li> </ul>	Limited physical access and data attacks
<ul style="list-style-type: none"> <li>• Credential Guard BIOS pre-requisites (VBS)</li> <li>• Windows Hello support</li> </ul>	External identity attacks

An Evō Design

Lenovo recommends Windows 11 Pro for Business.

The ThinkPad® P1 Mobile Workstation with the Intel vPro® platform delivers high performance on the go for an unrivaled business PC solution.

# Gain complete protection wherever and whenever work happens

## Lenovo ThinkShield

ThinkShield is a portfolio of hardware and software solutions that protect your organization. Lenovo helps you stay ahead of a range of security threats and adapt to meet the needs of your team so you can continue to focus on what matters.

## Technology you can rely on

Everything starts with embedding security into our devices and supply chain, ensuring device protection at deployment and beyond.

### Zero-Trust supply chain

### Worry-free chip-level protection

- Self-healing BIOS
- Hardware tamper management
- Firmware protection and recovery

### Straightforward access protection

- Fingerprint reader
- Device authentication
- Webcam shutter

## Security that adapts

Our open ecosystem of industry-leading partnerships adapts to our customers' needs and the changing security landscape. We utilize advanced predictive technology to automate both preventive and proactive procedures that would otherwise burden IT teams and employees.

### Seamless integration

- BIOS and OS integrated data protection

### Work-anywhere data protection

- Image recovery
- Data wipe
- Passwordless authentication
- Web browser security
- Remote management

### Automated proactive prevention

- Real-time detection and protection
- Automated patch updates
- BIOS update

## Expertise you need

As the leading hardware manufacturer and solutions provider, Lenovo and ThinkShield provide unique expertise and insight on how cybersecurity has been delivered and continues to evolve. We share that insight to help customers enhance their security profiles while reducing workloads.

### Smarter security services

- Managed services

### Boundless data protection

- Cloud backup solutions

### Lenovo Professional Services

- Global presence

An Ev<sup>o</sup> Design

Windows 11 Pro for Business.

# Collaboration ensures teams that connect together grow together

## Lenovo helps you respond fast to new office environments

### The challenge

Companies that recently implemented a hybrid work model find themselves in need of in-office collaboration solutions, adding another duty for IT teams managing a dispersed workforce.

- Evolving work models
- + Heightened employee expectations
- + Dispersed teams with diverse tech needs
- = **Difficulty choosing the best technology for workforce dynamics constantly in flux**

### How can Lenovo help?

Lenovo collaboration solutions are designed for technology-enabled hybrid work, including end-to-end IT enablement with comprehensive global services for the entire technology life cycle.

- Comprehensive services customized for your needs
- + Easy-to-use collaboration tools with advanced technology
- = **Transformed engagement, productivity and profitability without adding IT workloads**

### Smarter solutions keep innovation on the agenda

- Lenovo Complete Conference Room and Lenovo ThinkSmart
- Lenovo PCs, peripherals and smart features for every user

Collaboration-smart, long battery life and 5G-ready? Give employees the devices they need to succeed, like the ThinkPad® X1 Carbon featuring Windows 11 Pro and powered by Intel vPro®, An Intel® Evo™ Design, built for what IT needs and users want.

Lenovo recommends Windows 11 Pro for Business.

Keep your business running on a strong, reliable, optimized connection with Intel® Wi-Fi 6/6E (Gig+) and Intel® Connectivity Performance Suite so your team can stay on task and collaborate with ease.

## Unlock more opportunity

**60%** of IT leaders are interested in outsourcing hardware and software deployments.<sup>2</sup>

**47%** of IT leaders say collaboration tools have improved overall productivity and efficiency.<sup>2</sup>

**78%** of employees say collaboration powered by technology has unlocked opportunities to recruit and retain a more diverse workforce and skill set.<sup>2</sup>

# When business devices work seamlessly together, business works better

## Lenovo ThinkPhone by Motorola

Create seamless, secure experiences that help your employees achieve their potential in the modern working environment.

### Drive productivity and boost agility with the Think 2 Think experience

Instantly access any app, file or workflow from your ThinkPhone right on your Think PC. Copy and paste or drag and drop files between devices.

### Trusted security and easy deployment with ThinkShield

ThinkPhone has ThinkShield built in to include protection from threats as well as guaranteed security and OS updates for years to come. Use your existing EMM solution or our proprietary MDM to manage 100 devices or 100,000.

### Protect your investment with military-grade durability

The Lenovo ThinkPhone is MIL-SPEC-tested to meet military durability and reliability standards, just like ThinkPad devices. With IP68 certification, ThinkPhone is designed to withstand dust, dirt, and sand—and submersion in up to 1.5 meters of water for up to 30 minutes.

Lenovo recommends Windows 11 Pro for Business.

Lenovo laptops with Intel® Evo™ and 13th Gen Intel® Core™ processors feature Intel® Unison™ for seamless connectivity with Android and iOS smartphones.

## Think together. ThinkPhone.

Lenovo ThinkPhone by Motorola works seamlessly with Lenovo's Think family, like the ThinkPad® X1 Carbon powered by Intel vPro®, An Intel® Evo™ Design, built for what IT needs and users want.

To find out more, visit [lenovo.com/ThinkPhone](https://lenovo.com/ThinkPhone)

Think 2 Think is available on selected devices and on Windows 10 and 11. Visit the FAQ page for a full list of device and software compatibility. Requires PC app download. PC and mobile device to connect wirelessly must share the same Wi-Fi AP (access point) OR must be connected via USB-C cord. Lenovo ThinkPad must be running Windows 10 or higher.

ThinkSmart Bar

ThinkSmart Cam

ThinkSmart Cam and ThinkSmart Bar are certified for Microsoft Teams. When connected to a PC with the Intel vPro® platform—like the Lenovo ThinkPad® P1, powered by the latest Intel® Core™ i9 processors for an unrivaled business PC solution—remote management is simple.

An Ev<sup>o</sup> Design

Lenovo recommends Windows 11 Pro for Business.

## Lenovo ThinkSmart creates human-centered environments to spark collaboration

Lenovo ThinkSmart inspires a culture of collaboration with high-quality, equitable meeting experiences that give all participants a voice—whether they're onsite, at home, or on the go.

### For any setup style: ThinkSmart Core Room Kits

ThinkSmart One + Controller Kit	ThinkSmart Core + Controller Kit	ThinkSmart Core Full Room Kit
For small- to medium-sized meeting rooms or dedicated home office spaces	For spaces with preexisting audiovisual components	Supports huddle to large rooms and can be scaled up with additional tabletop microphone options

### For an immersive experience: Lenovo Complete Conference Room

Bring it all together with Complete Conference Room, an end-to-end conference and meeting solution featuring video, audio and management components. This scalable solution gives IT teams full control of all conference rooms on one console.

Hardware	Software	Services

## Lenovo Remote Work Enablement delivers an out-of-the-box solution

Lenovo makes it easy to get employees up and running quickly. The Lenovo Remote Work Enablement solution, available through Lenovo TruScale DaaS, ships a complete, ready-to-go remote office directly to employees at home or at the office.

This easy-to-deploy solution can be quickly customized to match specific tasks, roles and user preferences, and it can include devices, monitors, accessories, software and premium services.

- Next-gen AI-powered antivirus and advanced device protection
- Ready-to-provision operating system and essential drivers
- Lenovo Cloud Deploy
- Microsoft Windows Autopilot
- Custom fulfillment services
- Lenovo Premier Support Plus
- Accidental Damage Protection
- Lenovo Sealed Battery Warranty

Enable hybrid workers and streamline IT with custom solutions and devices like the ThinkPad® X1 Carbon powered by Intel vPro®, An Intel® Evo™ Design, built for what IT needs and users want.

## Engage your hybrid workforce

### Lenovo PCs, peripherals and smart features for every user

#### For data-intensive applications like CAD or analytics

Pair a ThinkPad® P1 Mobile Workstation, featuring the Intel vPro® platform with the latest Intel® Core™ i7 processors for an unrivaled business PC solution, with the ThinkVision® P27h-30 monitor.

#### For mobile employees

Pair a ThinkPad® X1 Fold, featuring Intel vPro®, An Intel® Evo™ Design powered by Intel® Core™ i7 processors—built for what IT needs and users want—with the innovative ThinkVision® M14t mobile monitor.

Also consider the ThinkBook® 14 Gen 5+ *i* enhanced by AI-based security technology and built on the Intel® Evo™ platform engineered to do it all—that's a laptop evolved.

#### For multipurpose versatility

The ThinkPad® T14 powered by the Intel vPro® platform delivers business-class performance and pairs perfectly with the ThinkVision p27h-30 monitor.

#### For dedicated workspaces, onsite or at home

The ThinkCentre® Neo 30a All-in-One combines the latest Intel® Core™ processors with integrated graphics and speedy DDR4 memory. This space-saving PC zips through everything from multitasking to crunching data sets and debugging code.

# Industry-leading audio technology

## Lenovo Go conferencing solutions

Keep distributed team meetings focused with audio devices from the Lenovo Go portfolio, featuring enterprise-grade audio technology that eliminates distracting background noise for everyone on the call.

### Ensure no great idea goes unheard

- Lenovo Go USB-C ANC in-ear headphones
- Lenovo Go wired and wireless ANC headsets
- Lenovo Go wired speakerphone

### Easy for IT and end user alike

- Plug-and-play-ready and no provisioning required
- Compatible with almost any OS and device type
- Lenovo Go Central software and app for users to set preferences
- Certified for Microsoft Teams

Engineered and tested to meet Intel’s strict audio quality and performance requirements, Lenovo Go audio devices pair best with ThinkPad and ThinkBook with the Intel® Evo™ platform powered by Intel® Core™ i7 processors.

Lenovo recommends  
Windows 11 Pro for Business.

## Essential apps and features

- **Lenovo AI Meeting Manager** drives accessible collaboration with communication features such as Translator, Voice-to-Text, Subtitles and Meeting Notes Editor.
- **Lenovo Voice** turns real-time language into multiple languages.
- **Microsoft Teams Speaker Coach** provides private, personalized presentation feedback.
- **Eyesafe®** requirements, reduce high-energy blue light, decrease eye fatigue, and maintain color performance as recommended by the Eyesafe Vision Health Advisory Board. A variety of Lenovo laptops meet these requirements including the ThinkBook 13x, powered by the Intel® Evo™ platform, engineered to do it all.

By 2025, 75% of Lenovo’s products will be vetted by inclusive design experts to ensure they work for everyone, regardless of physical attributes or abilities.

# The right technology partner has what you need, when you need it

## Lenovo uses global expertise, reliability and access to your advantage

### The challenge

Whether managing a large fleet or onboarding remote employees, IT teams face hurdles at every juncture of equipping employees with the latest technology.

An increasingly distributed, complex compute environment

- + Limited human resources to maintain expanded IT skill sets
- + Legacy systems or supply chains no longer up to today's demands
- = **Outdated technology that zaps innovation's true potential**

### How can Lenovo help?

Lenovo modern Digital Workplace Solutions deliver easy-to-deploy and easy-to-manage technology anytime, anywhere.

Technology that drives employee productivity

- + Flexibility to scale with a pay-as-you-go delivery model
- + Services that inspire innovation without the burden on IT
- = **Cost-effective efficiency, scalability and agility**

### Smarter solutions keep new advancements within reach

- Lenovo Unified Endpoint Management
- Lenovo Managed Collaboration Services
- Lenovo Premier Support Plus
- Lenovo TruScale
- Lenovo Sustainability Solutions

**Lenovo Digital Workplace Solutions are available as a service through Lenovo TruScale. Easily access devices like the ThinkPad® X1 Yoga with Windows 11 Pro and Intel vPro®, An Intel® Evo™ Design, built for what IT needs and users want.**

# Manage less so you can manage more

## Lenovo Managed Collaboration Services

Managed Collaboration Services helps you unleash the full potential of your Microsoft 365 investment. Take control of your Microsoft 365: Deliver expert support, unlimited backup and help augmented security, all while your IT department is freed up to focus on innovating and enhancing the business.

### Managed Support for Microsoft 365

- Take the complexity out of deploying and managing Microsoft 365 and reduce the burden on IT.
- Our Microsoft-certified service professionals optimize your Microsoft 365 onboarding and application configuration for success.

### Managed Security for Microsoft 365

- Ensure your security policies are compliant with your own company's policies and that your onsite, hybrid and remote work environments remain safe and secure.
- Benefit from continuous anti-phishing, malware and ransomware monitoring and maintenance help.

### Managed Backup for Microsoft 365

- With immediate access to restore data, and the right assistance from Lenovo, our experts ensure lost data can always be retrieved, so your business keeps running, without fail.
- Our Managed Backup service provides comprehensive, automated data backup and managed recovery—both at a user level for Microsoft Exchange and OneDrive, and at an organizational level for SharePoint and Teams.

### Cloud Migration for Microsoft 365

- With Lenovo's portfolio of Cloud Solutions, your business has an easier way to access Microsoft 365 licenses and the business-grade apps you need.
- The Lenovo difference is clear: a layer of services that are targeted at the challenges your organization faces and tailored to enable the business outcomes you expect from your move to the cloud.

# Solve IT issues before they happen. Now that's smarter.

## Lenovo Premier Support Plus

Premier Support Plus provides predict-and-prevent features, combined with additional protection services, to deliver the ultimate support experience for your workforce—every time.

### Help IT stay one step ahead of problems

Protect your business productivity and promote positive employee experience with rapid issue resolution and 24/7 access to support engineers.

**Proactive and predictive support:**<sup>4</sup> AI insights, powered by Lenovo Device Intelligence, enable preemptive issue remediation.

**24/7/365 support:** Access elite Lenovo-badged engineers for fast issue resolution.

**Services Engagement Manager (SEM):**<sup>5</sup> A single point of contact for service delivery issues, escalations and asset performance reporting.

**Accidental Damage Protection (ADP):**<sup>6</sup> ADP typically saves 50-93%\* compared to the cost of repair or system replacement.

**International Services Entitlement (ISE):** ISE extends your ADP, KYD and SBTY coverage internationally.

**Keep Your Drive (KYD):**<sup>6</sup> Keep your drive(s) and dispose of business data on your terms.

**Sealed Battery Warranty (SBTY):**<sup>6</sup> Lenovo-certified technicians ensure an effective and efficient battery replacement when needed.

**Coverage for consumer products:** Get exactly the same VIP support experience for consumer products.

Deliver high performance on the go with the ThinkPad® X1 Fold, featuring Intel vPro®, An Intel® Evo™ Design with Intel® Core™ i7 processors—built for what IT needs and users want.

Lenovo recommends Windows 11 Pro for Business.

# Everything as a Service unlocks opportunity for all with Lenovo TruScale

As-a-service delivery removes upfront costs, giving you the benefits of the latest technology without capital outlay. It lightens the load for deployment, security and management while delivering new efficiency that frees up IT time for strategic priorities and innovation.

## Lenovo TruScale Device as a Service (DaaS)

Lenovo TruScale DaaS provides comprehensive, scalable digital workplace solutions and frees up valuable IT resources with a predictable subscription-based model—all from a single trusted partner.

DaaS allows for quicker upgrades without upfront costs so organizations can future-proof their technology investments and be more competitive. Solutions can include the latest devices, like the ThinkPad® X1 Carbon with Windows 11 Pro and Intel vPro®, An Intel® Evo™ Design powered by Intel® Core™ i7 processors.

Combining devices, infrastructure, services and solutions into a single pay-as-you-go model, Lenovo TruScale helps your teams rapidly provision global teams, scale capabilities and respond to shifting operational demands.

## Lenovo TruScale Infrastructure as a Service (IaaS)

The trend for hybrid work is driving demand for more flexible, customizable, and scalable solutions. Simplifying your data center management and IT provisioning frees up valuable IT time and gives space for growth.

Our IaaS model provides a cloud-like flexible experience, giving you the right solutions at the right time, from the pocket to the edge—with on-premises security for control and peace of mind.

**Try our DaaS Value Calculator and see how Lenovo TruScale DaaS can reduce your total cost of ownership for end-user technology.**

# Sustainability your organization can be proud of

## Lenovo Digital Workplace Solutions help you reach your own sustainability goals

### Innovative packaging

In line with our vision of achieving net zero by 2050 aligned to Science-Based Target initiatives, Lenovo continues to focus on supporting a circular economy by increasing the use of recycled materials in products and packaging.

ThinkPad® X1 Carbon, ThinkPad® X1 Yoga, and ThinkPad® X1 Nano all feature recycled materials in select components. The retail packaging is made from 100% bamboo and sugarcane fiber, and brown box packaging is made from plastic-free packaging with 90% recycled and/or FSC-certified content.

### Lenovo Asset Recovery Services

Lower your environmental impact and help support a circular economy by returning your less-efficient IT equipment. We can assist you in the development of an asset disposition strategy that encourages the reuse, refurbishment and recycle of end-of-life products.

See how media giant Bertelsmann is getting to climate neutral by 2030.

### Lenovo CO<sub>2</sub> Offset Services

We partner with certified CO<sub>2</sub> offset service providers to help customers offset carbon emissions associated with their IT across the average life cycle—from manufacture, shipment and usage all the way to disposal. By offering CO<sub>2</sub> compensation based on realistic product emissions, customers can support United Nations-approved climate action projects around the world.

### Innovative design

Lenovo invented the low-temperature solder process to conserve energy, increase reliability and lower carbon emissions. Then we gave away this innovative technology to our industry for free.

Our Intel-powered systems contain processors that are made with 100% conflict-free minerals and deliver industry-leading performance.

## Contact your Lenovo Representative today

Partner with Lenovo to unlock opportunity, remove barriers to transformation and inspire smarter innovation. When you're ready, we're here to help you determine which combination of solutions and their components is right for your organization.
