## Lenovo ThinkSmart Hub Gen 2

Welcome your team around the table and ensure every voice is heard—across the room and around the world. With a familiar center-of-table form factor for meeting equity, the Lenovo ThinkSmart Hub is an impressive conferencing upgrade from traditional speakerphones. Delivering an incredible audio experience, this compact solution is fully certified by Microsoft Teams Room, providing users with an effective and consistent work environment.

Transform your small or medium rooms into effective hybrid workspaces with this collaboration centerpiece that provides better controls, inclusive audio, and reliable hardware, all built on the trusted Lenovo compute with Intel vPro® with Intel® Core™ i5 processor.

# Lenovo ThinkSmart Hub Gen 2

## EASY TO USE

The sleek, clutter-free design of the Lenovo ThinkSmart Hub uses minimal footprint features and a single cable connection for simple deployment right out of the box. Its rotatable display allows all participants to easily start, join, and share meeting controls. With its generous 10.1-inch touchscreen smudge-free display and 10-point touch, it's easy to adjust meeting controls and navigate the screen.

## EVERY VOICE HEARD

The familiar center-of-table design allows everyone in the room—and remote participants—to hear and be heard, so big ideas can clearly come to life. Ideal for small and medium rooms, the Lenovo ThinkSmart Hub provides a remarkable audio experience with four built-in speakers and four built-in mics, ensuring meeting equity around the table.

## EASY TO DEPLOY

Simple to set up and deploy, Lenovo ThinkSmart Hub is the ideal return-to-office solution. Delivering great value and robust reliability, this lasting investment can upgrade any small or medium meeting room into an effective hybrid workspace. And multitasking is faster and more secure than ever with Windows 11, enhanced 16GB memory, and Intel vPro® with Intel® Core™ i5 processors.

## security

Lenovo ThinkSmart Hub delivers hardware-enhanced security and modern manageability to the hybrid meeting space experience. Windows 11 provides best-in-class security technology and tightly integrated layers of hardware, software, firmware, and identity protection. Plus, Lenovo ThinkShield protects your devices throughout the lifecycle, including secure supply chain assurance, below-the-OS protection, and OS-to-cloud solutions.

## collaboration

Collaboration has always been the cornerstone of innovation, but the work-from-anywhere world demands advanced tools for productivity. With audio, meeting controls, and compute in a single form factor, the compact Lenovo ThinkSmart Hub delivers an intuitive purpose-built solution. Plus, hybrid teams will thrive with the real-time interaction of Microsoft Teams Rooms, making it easy to start a meeting, book a room, and share content.
