Features

LanSchool offers the most comprehensive classroom management features to help teachers create meaningful classroom experiences on any device. Popular features include:

Screen monitoring
Teachers can easily guide learning by viewing every student monitor – or switching to view individual screens.

Blank screen
With the touch of a button, educators can shift student attention by blanking screens and locking devices.

Push website
Instantly launch the same webpage on every device, making it simple for students to navigate to the correct URL.

Limit web
Help students focus by limiting access to approved websites and disabling internet access during tests and quizzes.

Messaging
Increase engagement by answering students' individual questions — or by sending messages out to the entire class.

Share screen
Teachers can easily share their screens across all student devices, capturing attention and saving valuable time.
