

# Intuitively built to support modern working

Get ready to lean into collaboration of every kind. Powered by Intel vPro® with Intel® Core™ i9 processor for an unrivaled business PC solution, the **Lenovo ThinkCentre M90a Pro Gen4** is built with collaboration in mind to support modern working.

2.5

The number of devices on average employees use to get their work done

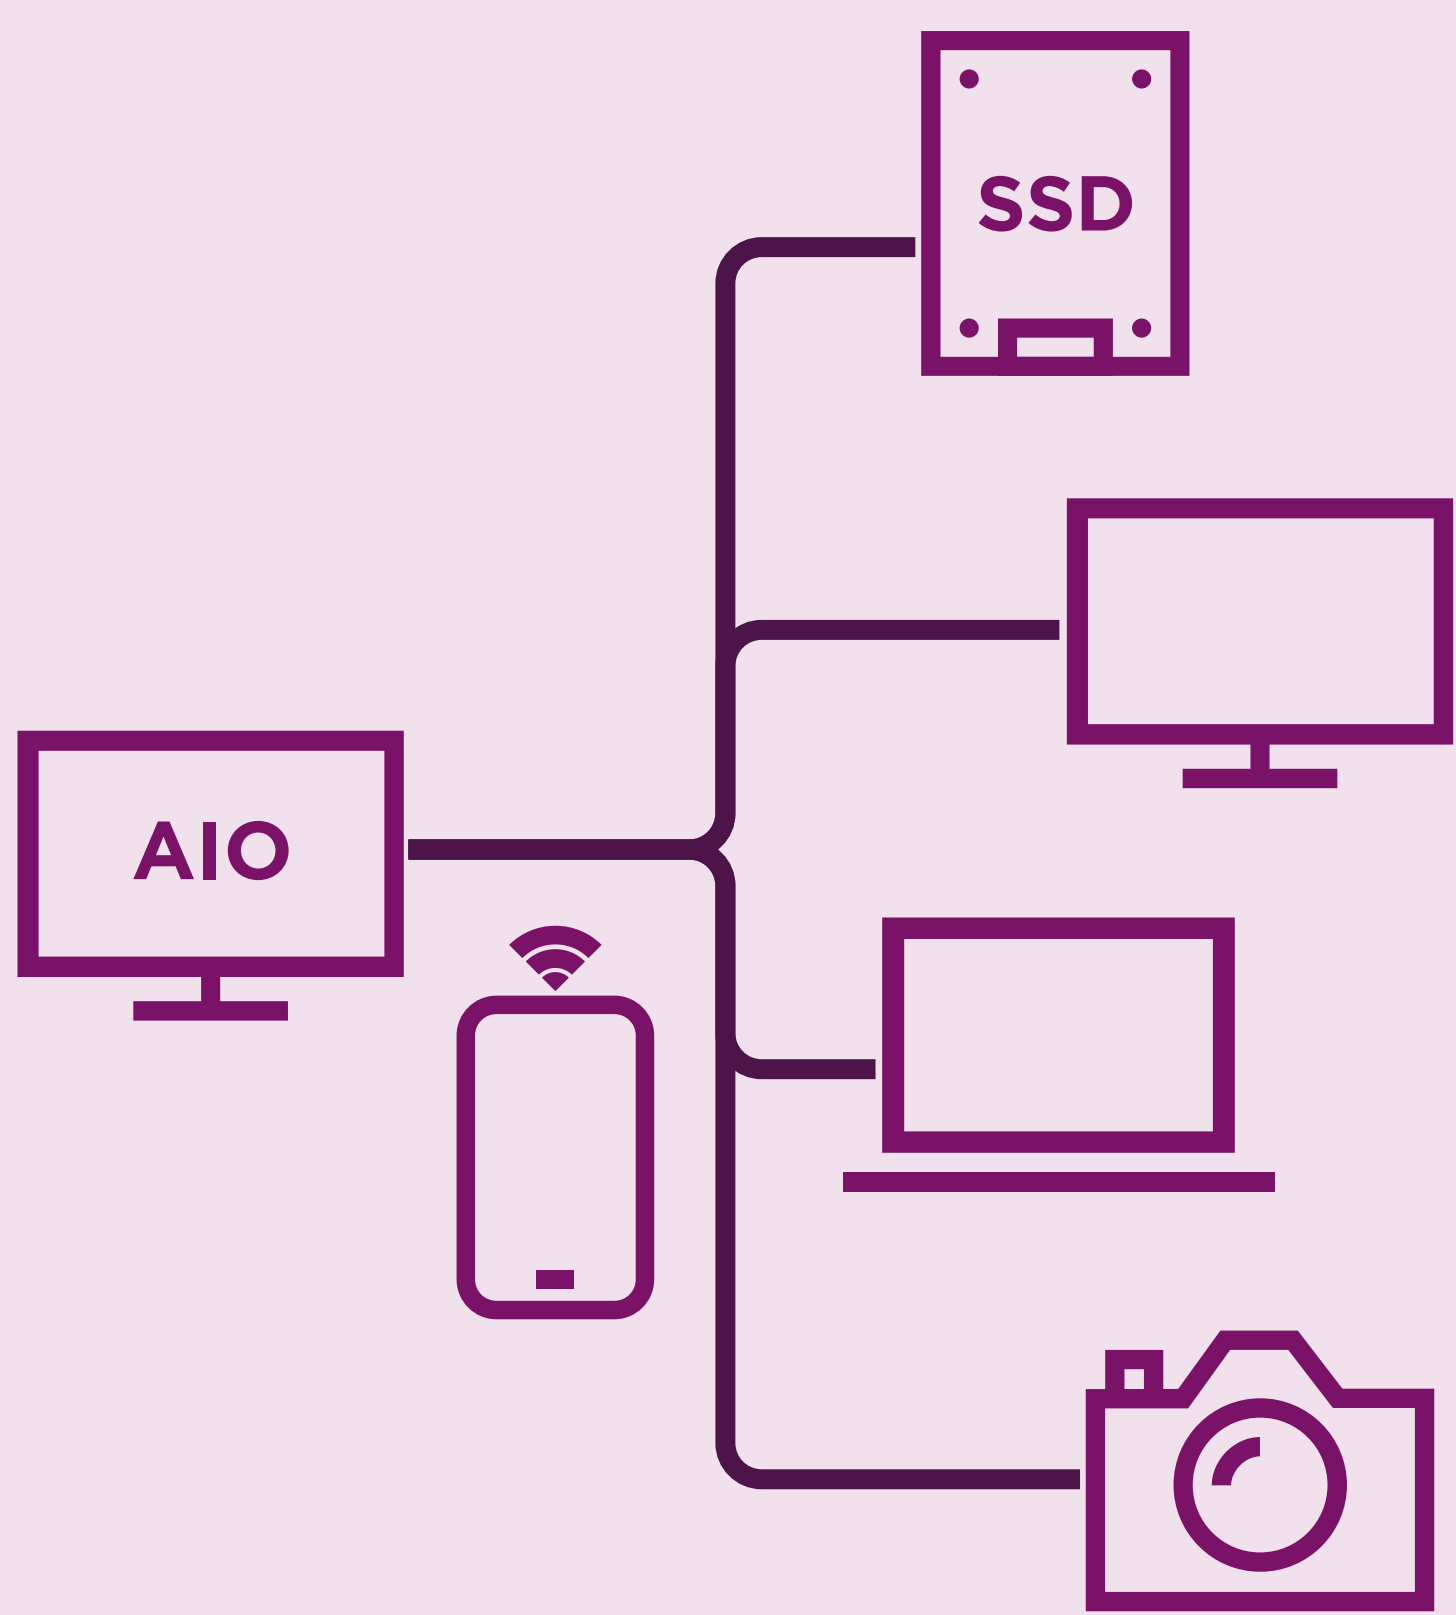

74%

Businesses offer some kind of flexible working option.

70%

Employees want to use both desktops and laptops to be more productive while hybrid working

## Setting new standards in multi-device collaboration

### Your new connectivity hub

The Lenovo Think2Think solution links Lenovo ThinkPhones to PCs and laptops, turning the ThinkCentre M90a Pro Gen4 into a connectivity hub with wireless device pairing and drag and drop file sharing.

### Thunderbolt (TBT)-enabled versatility

Connectivity to other devices is never a problem with the M90a Pro Gen4 which features TBT4 port and optional TBT3 and TBT Super Link 1.0 sharing ports for high speed data transfer and display sharing to connected devices. Plus 5x USB-A ports and 1x USB-C port.

## Hassle free, crystal clear conference calls

### Industry-leading conference call base

Dial into smooth and clear conference calls with **ThinkCentre SmartVoice**, an optional conference call base to help you connect anytime featuring **far-field voice capture and echo cancellation** and AI noise suppression.

### Look your best online

Lenovo Smart Appearance provides enhanced camera effects to protect your privacy and improve your personal appearance.
