

Lenovo ThinkPad

Mobility is a given—and a must—in today's workplace, whether employees are remote, hybrid, or spread globally. So, the sleek and ultrathin Lenovo ThinkPad T14s / Gen 5 has perfected lightweight portability with uncompromising productivity. Providing a premium user experience that integrates improved performance, enhanced accessibility, and more robust sustainability into a highly modern design, this extraordinary laptop elevates the everyday.

Powered by Intel® Core™ Ultra built on the Intel vPro®, Evo™ Edition platform to deliver what IT needs and users want, this Lenovo ThinkPad unlocks new AI possibilities. And an immersive experience is built in, with Intel® Arc™ graphics, a 400nit low-power display with 88% screen-to-body ratio, user-facing Dolby Atmos speakers, and 5MP + IR camera. But without the ability to remain untethered throughout the day, on-the-go productivity stalls. That's why this portable powerhouse boasts a lighter weight 58Wh battery for unyielding, all-day action.

Unlock new AI experiences

Lenovo ThinkPad T14s / Gen 5

PREMIUM PORTABILITY

Starting at just 1.24 kg (2.73 lbs), this Lenovo ThinkPad will never weigh you down when you're on the go. And with five times faster Wi-Fi connectivity—including Wi-Fi 7 capability—smooth collaboration is a breeze. The large 58Whr battery is lighter than ever and lasts at least 15 hours, even while delivering a 20% longer life and 16% less power consumption than the previous gen device, so uptime is maximized. Plus, heightened Lenovo ThinkShield security, with enhanced tamper protection, 4K RSA support for TPM, and Privacy Guard keeps your data and identity safe, no matter where work takes you.

PRODUCTIVE PERFORMANCE

Built on the Intel vPro® Evo™ Edition platform, the Intel® Core™ Ultra processor powering this Lenovo ThinkPad introduces Intel® AI Boost, the new integrated NPU delivering new AI capabilities with extreme power efficiency. This dedicated engine unlocks AI possibilities to unleash your imagination with efficient, real-time collaboration, content creation, and enhanced imaging and video. With up to 64GB LPDDR5x 6400Mhz memory, up to 2TB performance PCI Gen 4 storage, and up to Intel® Arc™ graphics with AI acceleration, this agile titan enables next-level creative brilliance.

SUPERIOR USER EXPERIENCE

Great portability doesn't require UX compromise. Thinner bezels surround the entire display, resulting in an 88% screen-to-body ratio and more vivid views than ever. In fact, with Optical Solutions from 3M™—an industry first from Lenovo—brightness increases by 33% while lowering power consumption by 16%. A cleaner interior delivers further enhancements, including swapped control and function keys. You and your device stay cooler, too, thanks to improved airflow and the rear exhaust. Plus, Intel® Unison™ lets you pair with your iOS or Android smartphone to make and receive calls and texts, as well as share files right on your laptop.

RESPONSIBLE DESIGN

Two new colors—rich Eclipse Black and bright Luna Grey aluminum—amplify the modernized design and thinner appearance. Beyond the beautiful aesthetics, this Lenovo ThinkPad is all about intentional engineering, from the easy-to-open lid and enhanced repairability to the use of more PCC recycled materials. Plus, Lenovo is paving the way for broad accessibility, integrating features like keyboard tactile markers for the visually impaired and an LED marker to indicate side port location. Plus, the light color changes to allow for top-view identification of the side power delivery port location.

Lenovo Sustainability Services

Partner with Lenovo to implement more sustainable, cost-efficient practices across the device lifecycle and make a meaningful difference in how you use technology.

LENOVO TRUSCALE DEVICE AS A SERVICE (LENOVO TRUSCALE DAAS)

This subscription model is an efficient way to manage your fleet of end-user devices, optimizing resources and costs while promoting circularity. Deploy just what you need and responsibly dispose of what you don't. Supported by our suite of services, TruScale DaaS helps you prolong device usability and create a more sustainable end-to-end journey for your IT assets.

LENOVO CO₂ OFFSET PROGRAM

While minimizing and eliminating emissions is always the goal, carbon offsetting your IT fleet is another way to help manage your overall carbon footprint. We make it easy with a seamless, transparent process for Lenovo devices across your current IT fleet or new purchases—with a sustainability dashboard to view the offset metrics. The offsets are contributed to climate action projects verified by independent third-party organizations like the United Nations, CDM, Gold Standard®, and Climate Action Reserve.

LENOVO ASSET RECOVERY SERVICES

Hardware-agnostic Lenovo Asset Recovery Services (ARS) help mitigate end-of-life IT and data security risks. We reuse parts, refurbish devices, and recycle assets. Buy-backs help you fund future IT investments. And Lenovo PCs and infrastructure hardware can get a new lease on life through Lenovo Recertified Services.

Lenovo ThinkPad T14s / Gen 5

Committed to sustainability

At Lenovo, we're focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities, and the planet. We're determined to build a smarter future for all through the products and services we offer. And we partner with Intel, the industry leader in sustainable semiconductor manufacturing.

As we continue innovating to provide technology solutions that are more energy efficient and human-centered like the Lenovo ThinkPad T14s / Gen 5, we stay focused on empowering you to meet your own sustainability goals—and solve humanity's greatest challenges.
