## Easy to Manage

The Lenovo ThinkSmart Tiny Kit includes ThinkSmart Manager Basic to help IT admins analyze utilization of distinct in-room devices through remote management and monitoring. By doing so, IT can determine if high-usage rooms are the right choice to upgrade to a dedicated Microsoft Teams Rooms system.

**Get remote visibility and manageability capabilities with ThinkSmart Manager Basic.**

**Remotely assess room occupancy, device health, and peripheral usage.**

**Gather data on meeting environments to make informed decisions about device and workspace investments.**
