

Award-winning classroom management software

Guide Learning

Encourage positive redirection and keep students safe with easy-to-use monitoring features, including screen monitoring, limit web, and blank screen.

Promote Collaboration

Easily share your screen with the class to distribute materials, administer quizzes and polls, and highlight outstanding student work.

Maximize Teaching Time

Manage multiple activities within one simple platform and customize your settings to access frequently used features.

More learning, less distraction

LanSchool offers the most comprehensive classroom management features to help teachers create meaningful classroom experiences on any device. Popular features include:

Classroom Administration		Effective Classroom Learning	
NEW	Screen monitoring Teachers can facilitate guided learning and maintain focus by monitoring student screens or switching to view individual screens.	NEW	Share screen Teachers can easily share their screens across all student devices, capturing attention and saving valuable time.
	Blank screen With the touch of a button, educators can shift student attention by blanking screens and locking devices.		On-Task monitoring <i>in beta</i> Teachers can keep students on-task by setting class objectives with LanSchool's AI functionality, fulfilling educational goals.
	Push website Teachers can instantly launch the same webpage on every device, making it simple for students to navigate to the correct URL.		Co-teaching Create a united classroom experience by allowing screen access to lead teachers and their paraeducators, school administrators, or other co-teachers.
	Limit web Help students focus by limiting access to approved websites and disabling internet access during tests and quizzes.		App limiting Limit distractions by controlling which Windows or Mac applications students can access during class time.
	Messaging Increase engagement through two-way messaging by answering students' individual questions — or by sending messages out to the entire class.		Merge classes Combine previously synced classes from ClassLink or Clever so teachers can view students from multiple classes as one.

LanSchool Specifications

- Supported on Chrome, Firefox, and Edge browsers
- Cloud based platform, with installed software to enable monitoring on Windows, macOS, and Chromebook devices
- Automatic rostering integrations available, including: Classlink, Clever and Google Classroom

Additional Features

- ✓ Powerful integrations with Google Classroom, Clever, and ClassLink
- ✓ Compatible with Windows, Mac and Chromebook student devices
