Lenovo builds connections to inspire and enable learning anywhere.

In the landscape of modern education, where every corner of a campus pulsates with potential, Lenovo stands as a beacon of innovation and connectivity. Our vision extends beyond products to address critical educational challenges with intelligently designed spaces that foster discovery and enable seamless learning experiences.

Embracing the educational journey's strategic complexity, Lenovo's solutions reimagine the very concept of learning environments. We help institutions harness the power of AI to ensure that each space, whether a high-tech lab or a virtual classroom, is a catalyst for creativity and collaboration. We recognize the hurdles—reviving student engagement, supporting educators, and fortifying against cybersecurity risks.

Lenovo's AI-enhanced approach not only amplifies the effectiveness of educational spaces but also equips them with predictive insights for a proactive educational journey.

As we redefine educational spaces, we craft a strategy focused on sustainability, ethical innovation, and partnership. Lenovo is committed to empowering educators, inspiring learners, and elevating institutions to new heights of achievements—anywhere, anytime.

Join us in this journey of transformation, where every Lenovo-powered space is a step towards a smarter, more connected educational future.

Pave the way for future innovations

Lenovo is proud to partner on the Intel® Skills for Innovation Initiative.

The Lenovo and Intel® Skills for Innovation (SFI) program is designed to prepare students for future success by integrating cutting-edge technology into education. This program, offered to institutions using Intel-powered devices, includes:

-  Lenovo expanding classroom starter kits with 6 additional modules for Lenovo customers.
-  Intel SFI lessons and professional development, helping educators integrate emerging technologies into their curriculum.
-  A focus on building critical skills sets and mindsets like computational and design thinking.

Reinventing technology's role in education to empower students to become the next generation of innovators.

SFI program elements

- Intel® SFI Starter Pack—20+ lessons on AI
- Intel® SFI Professional Development Suite
- Intel® SFI Learning Management System

Hybrid Classroom

Embrace next-level solutions for hybrid learning.

Smarter builds collaboration and connections for hybrid and virtual learning.

Lenovo recognizes the critical role of technology in education as instructional models evolve, including hybrid and virtual courses. By leveraging robust devices and hardware solutions tailored for collaborative learning, Lenovo ensures educators and students remain connected and engaged. With easy-to-manage systems like Google Meet Series One and ThinkSmart Core Kits, Lenovo addresses diverse classroom needs, simplifying the transition between in-person and remote learning environments for a seamless, adaptable, and effective educational experience.

Smarter technology for all 

Lenovo hybrid classroom

Empowered by Lenovo ThinkSmart

Lenovo ThinkSmart Hub + Cam

Allows seamless collaboration with one-touch meeting initiation and content sharing.

Lenovo ThinkSmart One + Controller

Lenovo ThinkReality VRX

Smarter awakens potential.

Transforming education for tomorrow's leaders, Lenovo's VR solutions, with ThinkReality VRX, offer immersive and interactive learning experiences.

The ThinkReality VRX headset further elevates this experience. This lightweight, all-in-one VR device, powered by Qualcomm® Snapdragon™ XR, brings advanced 6DoF and high-resolution capabilities for mixed reality in education. Its design and supportive services accelerate academic success and ROI, making it a pivotal tool in modern educational settings.

Lenovo XR solutions with ThinkReality VRX are reshaping immersive learning, simplifying complex concepts, and expanding educational horizons.

Smarter technology for all **Lenovo**

Lenovo ThinkReality VRX and Education

The Lenovo ThinkReality VRX Engineered for enterprise

Experience the evolution of VR for education with the Lenovo ThinkReality VRX headset. The six-degrees-of-freedom (6DoF) all-in-one VR device features purpose-built construction and exceptional performance. Students can take a more immersive approach to learning in a safer, distraction-free environment that leads to better retention of information and opens the door for experiences that may not be physically, financially, or logistically possible in the real world.

A powerful solution for virtual workplace experiences

Engineered for enterprise

Enhanced comfort for extended use

Global service and support

Enhance your educational approach with advanced training, collaborative opportunities, and innovative design for the learning experiences of tomorrow. [Contact your Lenovo rep to learn more.](#)

Esports

With a **custom esports solution** from **Lenovo**, it's game on.

Esports fosters an inclusive environment, free from most physical restrictions, for students who may not be interested in or are unable to participate in traditional sports. Students gain solution-finding and team-building skills, boosting self-confidence along the way. Some students can even earn scholarships as colleges and universities are now building varsity esports programs. Businesses are also starting to see what skills gamers can bring to the workplace.

Lenovo Esports has experienced esports consultants who listen and can help you determine your next steps with a number of professional services and solutions to achieve your goals. To round it off, we offer a fantastic set of products and accessories in the Lenovo Legion and ThinkStation workstation lines, all backed by education warranty and leasing options.

Smarter technology for all **Lenovo**

Game-winning gaming

With all the potential that esports offers, you'll want an approach that helps you get the most out of your program. Lenovo's team of experienced gaming professionals is with you every step of the way to begin or expand your K12 or university esports programs.

Discovery

Lenovo will help you envision what your esports program could be like and share best practices from other schools.

Consultation

Our experienced gaming professionals are standing by to advise and consult.

Goal Setting

Lenovo can help you future-proof your program and identify key success metrics to track over time, ensuring esports is a smart, long-term investment.

Custom Solution

Lenovo offers custom end-to-end solutions to help fill in any gap on your Esports roadmap, from install and design to operations and expansion.

Hybrid AI Solutions

Bridge Learning and Innovation with AI-Powered Services

Empowering higher education for smarter hybrid learning and research solutions.

Lenovo AI Fast Start:

Helps you quickly prove the value of Personal, Enterprise, and Public AI platforms. It provides access to AI assets, experts, and partners to rapidly build a GenAI solution tailored to your institution, ensuring relevance and speeding up large-scale deployment

[Get started](#)

Lenovo TruScale Device as a Service (DaaS):

Provides comprehensive, scalable Smarter AI devices and frees up valuable IT resources with a predictable subscription-based model—all from a single trusted partner. TruScale DaaS allows for quicker upgrades without upfront costs so Higher Education organizations can future-proof their technology investments and remain competitive.

Lenovo TruScale Infrastructure as a Service (IaaS):

Unlock the advantages of on-premises infrastructure with the flexibility of a cloud-like experience. Lenovo offers tailored solutions for hybrid and multi-cloud environments, infinite storage, and high-performance computing (HPC).

Our new TruScale GPU as a Service boosts HPC with advanced workload orchestration and usage metering, optimizing AI GPU resources for maximum productivity and availability. Combined with Asset Recovery Services, assets can be securely recycled, reused, or repurposed in an environmentally friendly way to maximize value. In an era of rapid advancements in AI and GenAI hardware and software stacks, this flexibility is crucial. Lenovo provides clients with the broadest range of deployment options.

Services

Lenovo

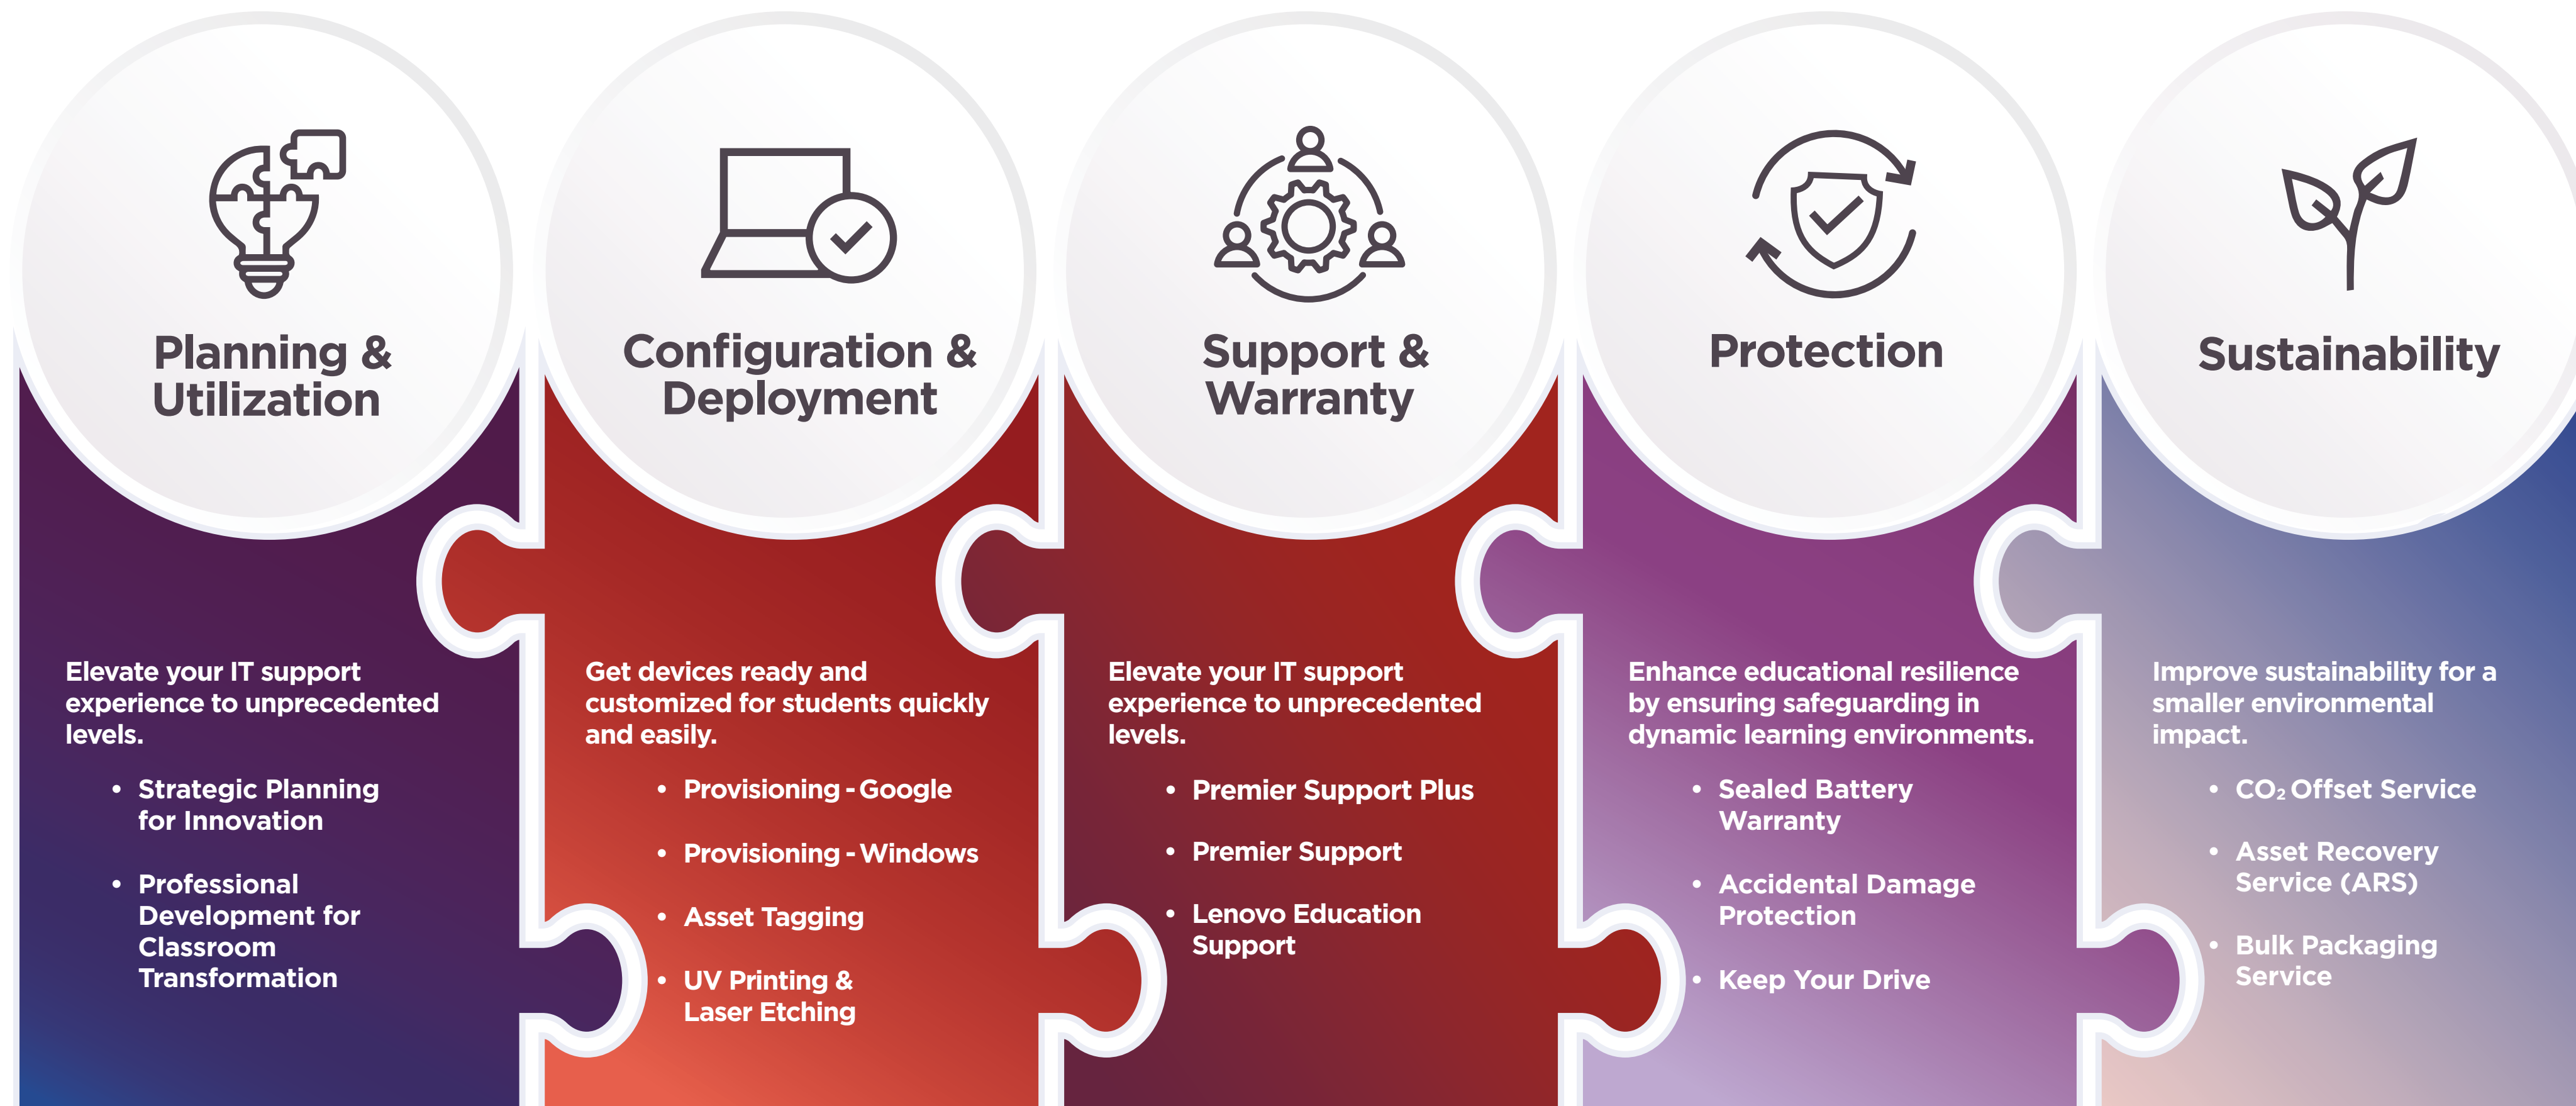

End-to-end services support ongoing learning.

Serving education far beyond our innovative technology, Lenovo's world-class services portfolio delivers end-to-end solutions that span the lifecycle of Lenovo systems, helping learning institutions plan and utilize technology most effectively to enhance learning outcomes as well as maintain, protect, support, connect, configure, and retire end-of-life assets in an environmentally sound and cost-effective way.

Smarter technology for all **Lenovo**

Lenovo end-to-end services

A refreshingly simple approach to device management

Focus on what you do best. Lenovo TruScale Device as a Service (TruScale DaaS) manages your device lifecycle, so educators and ITDMs can ensure better learning outcomes.

Flexible Payment Options

- Simple monthly cost includes devices, software, and services.
- Delivery of the latest devices.
- Maximize cost efficiency with custom solution built around your institution's unique requirements.

Education-Specific Software & Solutions

- Support modern classrooms with a DaaS solution that can grow and change with your institution.
- Empower learning both inside and outside of the classroom with Hybrid Classroom and VR Classroom solutions.
- Select your custom software and solutions with options from advanced classroom management to airtight security with protection from cyberbullying and illicit content.

Flexible Service Support

- Keep users productive and devices running smoothly with Premier Support.
- Protect devices with Accidental Damage Protection, Onsite and School Year Warranty Services, and ThinkShield security.
- Leverage expert end-to-end lifecycle management services, including configuration, deployment, device management, warranty repairs, and secure asset disposition.

TruScale DaaS for Esports

- Keep your esports devices up to date as technology advances.
- Affordable payments with gaming products, services, and even furniture included.
- End-of-term flexibility to meet your school's needs.
