

Smarter is creating spaces with gaming.

Lenovo Legion has you covered.

For the children

Gaming can **improve** the experience of patients during their hospital stay.

Sense of Normalcy

Playing video games provides a sense of normalcy for a lot of children, and it's something the whole family can enjoy together.

Combats Boredom

Gaming can be a healthy distraction from time in treatment, extended stays, or when visitation has ended, reducing anxiety and stress.

Pain Management

Games can be effective in providing a distraction to pain and discomfort during medical procedures.

Lenovo Esports has the packages to reach your impossible!

Lenovo

Mobile Solution

Designed for flexibility, the mobile solution allows for equipment to be loaned out to individuals and automatically updated so it stays patched and ready to play at all times.
