Lenovo ThinkPad P1

Performance Meets Design

AI PCs built for business

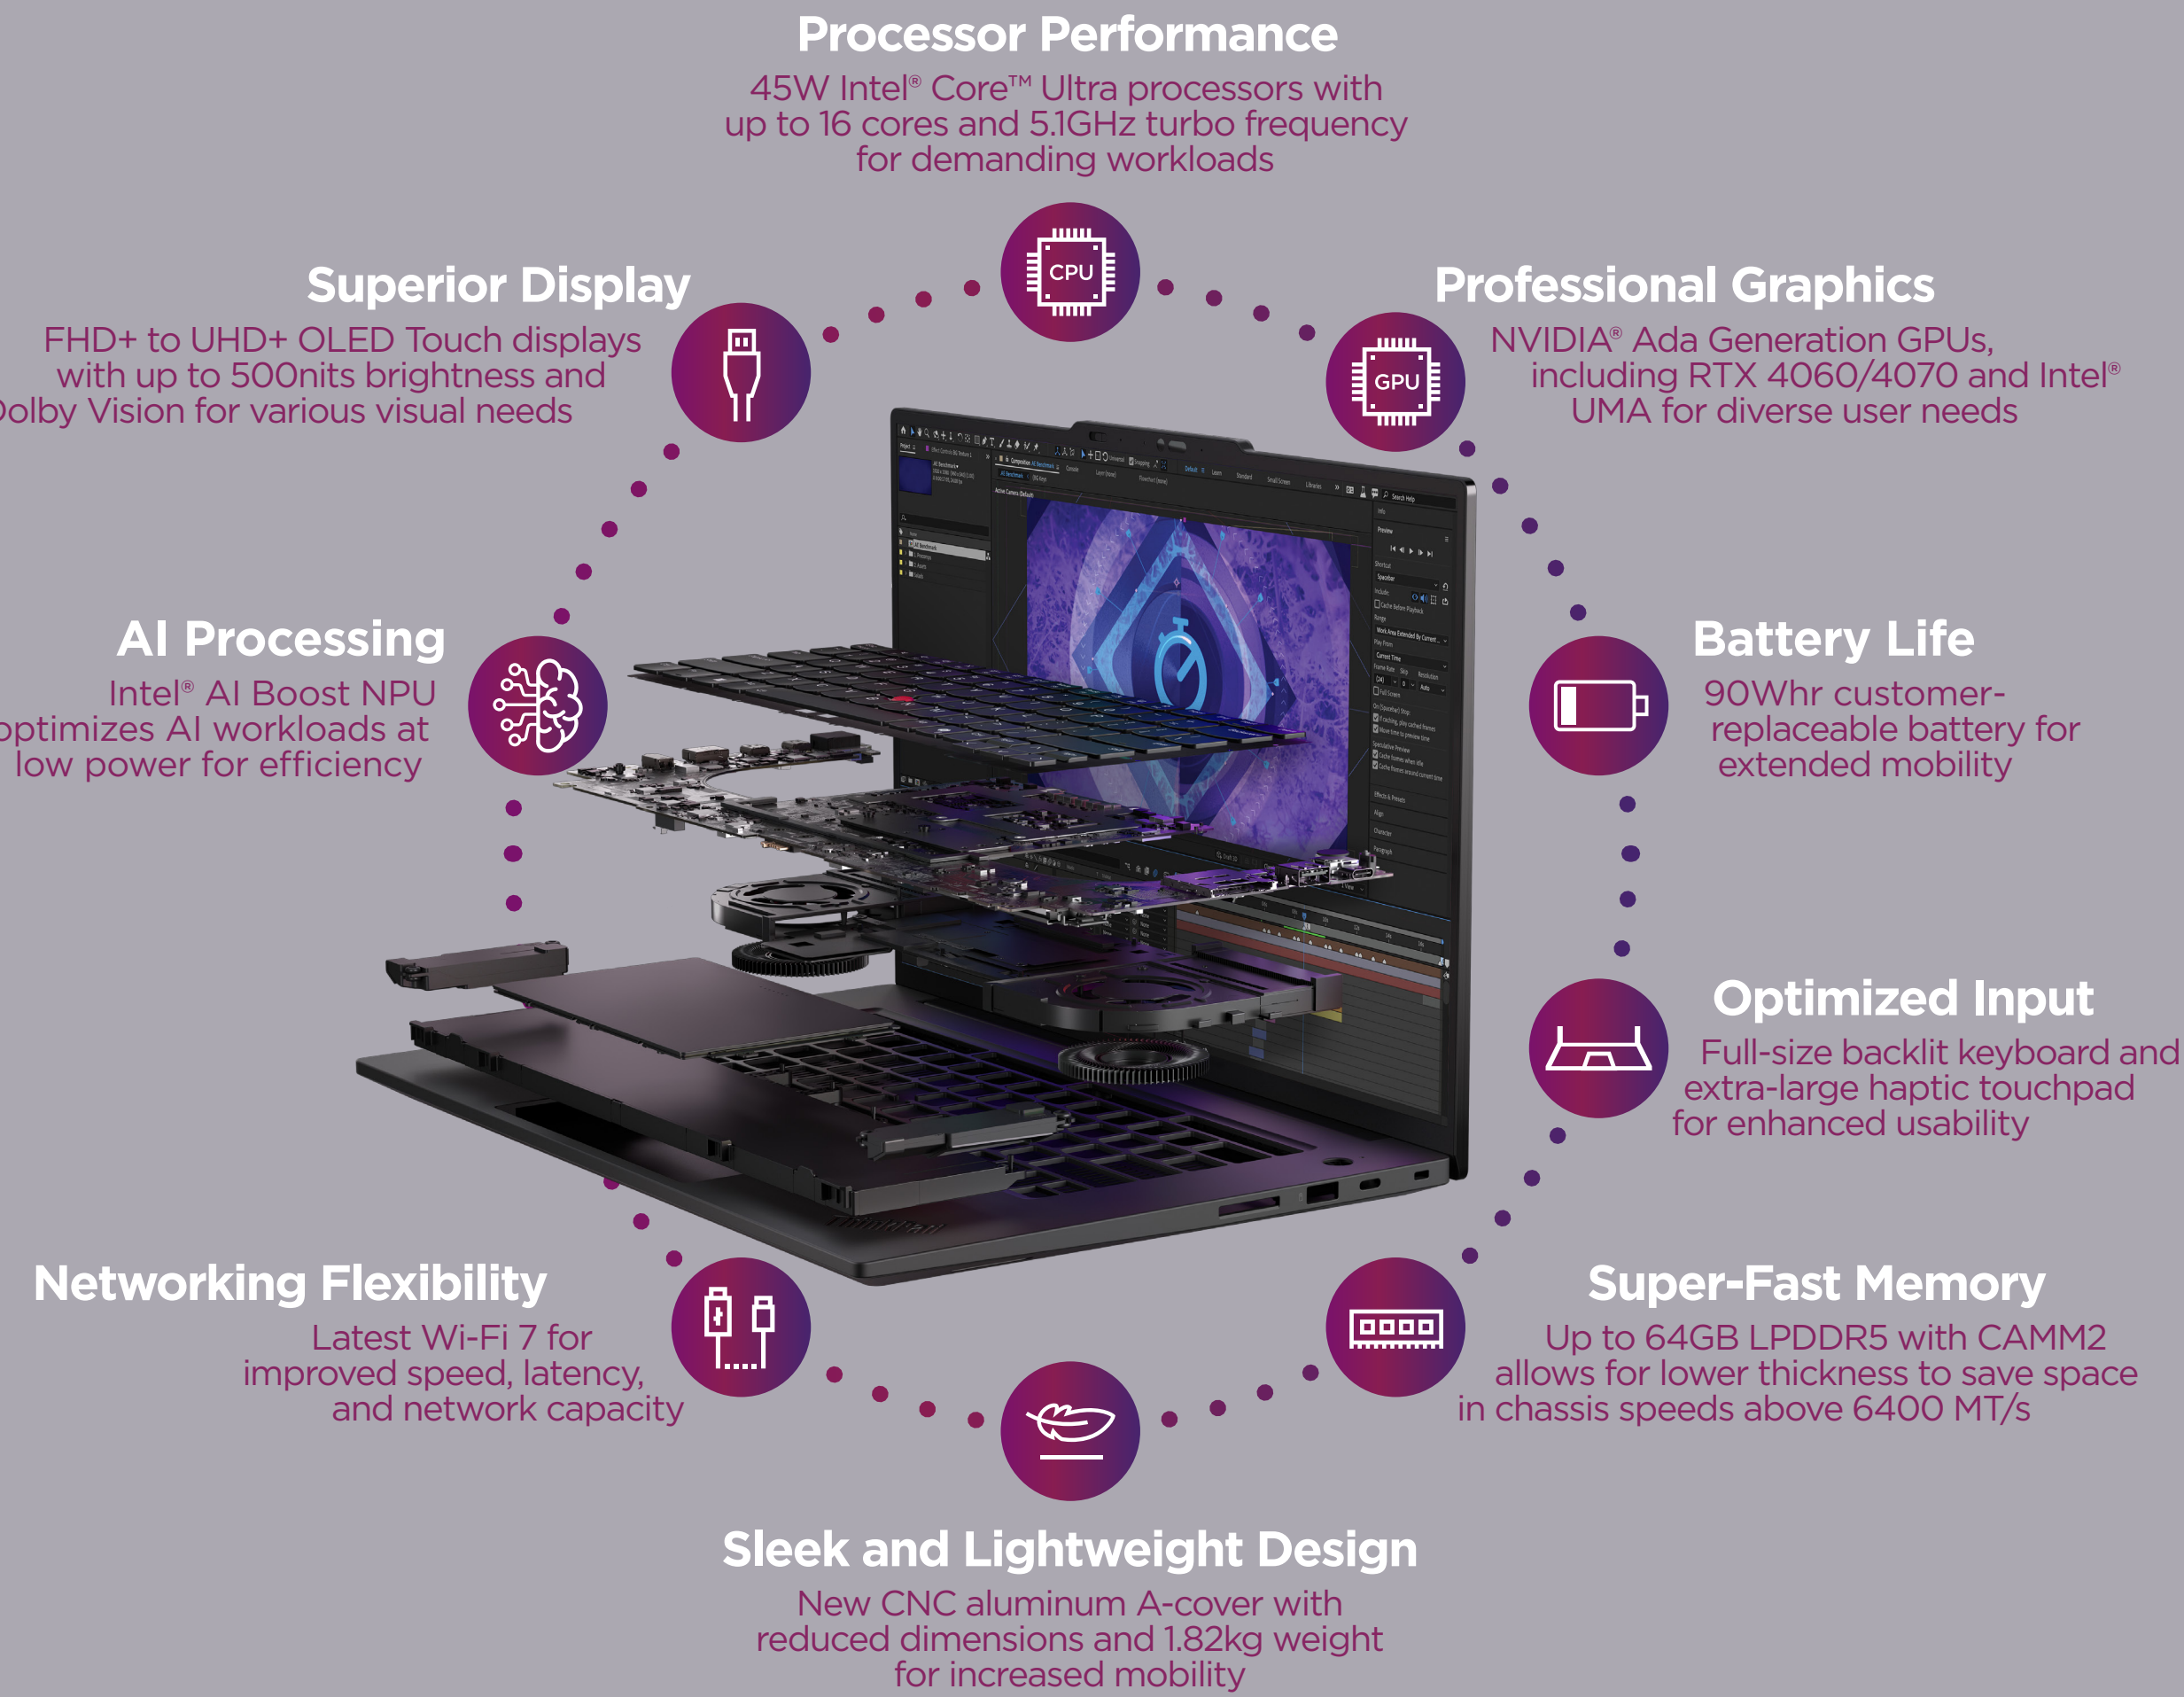

Lenovo

Built for creative professionals who demand power and flexibility, the ThinkPad P1 combines cutting-edge performance with a sleek, future-proof design.

Powered by Intel® Core™ Ultra processors featuring the new Intel® AI Boost neural processing unit, and equipped with upgradable CAMM memory, this workstation empowers artists to tackle even the most demanding tasks. In the studio or on the go, this versatile design and advanced features make it ideal for modern, fast-paced creative workflows.

ThinkPad P1 Features & Benefits

The Power You Need in an Advanced AI-Ready System

Elevate productivity and creativity with Intel® Core™ Ultra processors and AI features like text-to-video, image creation, and machine learning for advanced editing. Faster processors and AI save time on video and photo editing with apps like Adobe Photoshop, Audacity, and many more.

ThinkPad P1 Spotlights

- Thin & Light**
Media and entertainment artists need a mobile device that fits their fast-paced, creative lifestyle. The ThinkPad P1 delivers performance and portability, enabling creativity on the go.
- Efficient & Innovative**
Go ahead—Push your device to perform. The ThinkPad P1 features advanced thermals, including liquid metal cooling on select models*, and Flex Cooling System optimize airflow and efficiency.
- Memory & Performance**
The ThinkPad P1 includes customer-replaceable LPCAMM2 memory, offering lower latency, better bandwidth, and faster speeds for multitasking and quicker load times.

Streamlining Every M&E Workflow

Administrative Professional
Perfect for project managers, its speed and display make tasks more efficient. Ideal for reviewing images and videos, creating reports in MS Office, and managing emails.

Animators & Video Editors
Tailored for animators and video editors working on 2D/3D animation and video editing, its powerful GPU and accurate display easily handle complex projects.

Remote Worker
Ideal for staff who work remotely and travel often, its long battery life and portability are optimized for video calls and document editing, ensuring productivity.
