for all**

Lenovo

Lenovo ThinkSmart One Pro

Smart sound. Sharp vision.
Designed for conversations that matter.

ThinkSmart One Pro is an all-in-one video conferencing bar that brings built-in compute, smart camera tech, and AI-powered audio to small meeting rooms. With auto-framing, noise suppression, and eight beamforming microphones, it delivers sharp video and clear, room-filling sound, making it easy for conversations to stay focused and natural.

Its sleek, wall-mountable design makes setup simple, while ThinkSmart Manager gives IT teams full remote visibility and control. ThinkSmart One Pro is easy to deploy, manage, and scale across rooms for consistent, high-quality collaboration.

 **Certified for
Microsoft Teams**

¹ Lenovo ThinkSmart Manager comes pre-loaded on all Lenovo ThinkSmart One bars. Lenovo ThinkSmart Manager has two levels; Basic and Premium. Premium is included with your Lenovo ThinkSmart One + Controller purchase for one year. You can choose to continue service for an additional cost.

Lenovo ThinkSmart One Pro

SMARTER VIDEO, POWERED BY AI

The ThinkSmart One Pro's high-resolution camera uses AI to automatically frame participants as they move, enter, or leave the room. This ensures everyone stays visible and engaged in the conversation, creating a more natural and inclusive meeting experience for both in-room and remote attendees.

ENGINEERED FOR EXCEPTIONAL SOUND

Echo cancellation, noise suppression, and audio leveling ensure balanced sound, so everyone is heard from anywhere in the room. Stereo speakers deliver rich, room-filling audio that enhances engagement and drives better meeting outcomes.

FLEXIBLE & FUTURE-READY

Accessory Mode adds even more flexibility, giving employees the freedom to connect their laptop and join any UC platform without compromising performance or meeting room consistency. Running on Windows 11 delivers fast performance, advanced security, and deep integration with Microsoft 365, while receiving the latest features and updates first to ensure a consistent, up-to-date experience across the enterprise.

SOUND

- Premium sound for crisp clarity
- 2x high-intelligibility speakers
- 8-mic beamforming array for rooms up to 18 feet deep
- Next-gen AI DSP delivers superior clarity

CAMERA

- Auto framing, intelligent framing
- Sharp contrast, vivid colors, brighter images
- 1080p at 30fps
- 100° wide field of view captures more of the room

COMPUTE

- Windows 11 IoT
- Intel® Core™ vPro
- Intel® Iris® Xe Graphics
- Enterprise-level security

Lenovo ThinkSmart Manager¹

By leveraging the remote management capabilities of Intel® vPro® combined with Intel® Active Management Technology (AMT), this proprietary console provides your IT team with the ability to deploy, monitor, and troubleshoot Lenovo ThinkSmart devices from a single interface, regardless of the state or location of the devices.

- Includes one year of Lenovo ThinkSmart Manager Premium
- Leverage a single console to remotely deploy, manage, configure, update, and resolve issues
- See real-time status by device and receive live at-a-glance issues lists
- Perform bulk configuration and bulk restarts
- Generate reports to keep tabs on device issues and trends
- Take advantage of elevated security options

DEPLOY

Included for the three years, Lenovo ensures your ThinkSmart devices function optimally through virtual deployment installation and integration support.

MAINTAIN

Included in the three years, we follow up with remote check-ins and assist with ongoing security updates to take the stress out of device maintenance.

**Sustainably made with
OEKO-TEX® certified Tuntex fabric
from recycled materials.**

**100% of Lenovo ThinkSmart
Products will incorporate PCC
recycled materials by 2025.**

Lenovo

¹ Lenovo ThinkSmart Manager comes pre-loaded on all Lenovo ThinkSmart Core Gen 2 devices. Lenovo ThinkSmart Manager has two levels: Basic and Premium. Premium is included with your Lenovo ThinkSmart Core Gen 2 purchase for one year. You can choose to continue service for an additional cost.
² Optional

Lenovo ThinkSmart One Pro

Security at every layer

COMPREHENSIVE MONITORING

- Immediate notifications to fix critical issues before they're problematic
- Real-time status views by device
- Generates reports on device issues and trends
- Monitors device usage, security posture, and hardware/software inventory

RESILIENT PROTECTION

- Prevention against unwanted USB port use
- Central management of passwords for BIOS, Windows, and Microsoft Teams accounts
- Work-from-anywhere solutions and partnerships with world-class independent software security vendors
- Embedded security directly in the firmware
- ThinkShield adds an extra layer of security through its OS-to-cloud solutions

MODERN REMOTE ACCESS

- Single console with ThinkSmart Manager to remotely deploy, configure, and update devices
- "Apply all" to streamline actions across multiple endpoints
- Bulk restart rules
- Always-on security with Absolute's Persistence technology
- Enable/disable with Windows remote desktop and Intel vPro® remote terminal with Intel® Active Management Technology (Intel® AMT)
