

## Lenovo Chromebook 100e Gen 5

Fueled by either the Intel® Processor N-Series or MediaTek Kompanio 540 processor, the rugged and lightweight Lenovo Chromebook 100e Gen 5 helps K-12 students thrive wherever learning happens. This go-everywhere device is available in two screen sizes, either 11.6" touch or non-touch display or 12.2" for more visual real estate. And the new innovative design is built to last, with impressive repairability and serviceability with customer replaceable unit (CRU) components, as well as Lenovo DuraSpec toughness that protects against drops, spills, and bumps.

The improved 50 Wh battery and enhanced Wi-Fi 7 and optional 4G LTE connectivity mean students don't have to press pause on learning when away from a plug. Plus, with additional ports available, including dual USB-C ports, the Lenovo Chromebook 100e is more versatile than ever, with ample options for needed peripherals. Made to be intuitive and user-friendly, the ChromeOS platform equips students with the confidence they need in the classroom and beyond.

## RELIABLE PERFORMANCE

The Lenovo Chromebook 100e inspires a love for learning, thanks to the smooth performance of the Intel® Processor N-Series or the MediaTek Kompanio 540 processor, up to 8GB of memory, and up to 64GB of storage. The clear, crisp sound of Waves MAXX Audio and bright 11.6" or 12.2" display further amp up the engagement factor, while a touchscreen option allows for more natural interaction while taking notes, sketching, or brainstorming. The larger 50 Wh battery expands students' time away from the plug, with up to 18 hours<sup>1</sup> of battery life. And with faster Wi-Fi 7 and optional 4G LTE capability, the built-in capacity for always-on learning and collaboration is stronger than ever.

## DURABLE LONGEVITY

It's the solid durability of the Lenovo Chromebook 100e that takes this device to the top of the class. Industry-leading Lenovo DuraSpec and MIL-SPEC testing instills confidence for go-everywhere learning, protecting against accidental spills up to 360 ml, drops onto concrete at 76 cm, and A-cover force of 60 kg. And those daily bumps and knocks are no problem, thanks to the raised TPU bumper, anti-pry keycaps, and reinforced ports and hinges. When repairs are needed, Lenovo has made serviceability a snap, with the customer replaceable unit (CRU) battery with captive screws, slide-in top-load keyboard, and one replaceable USB-C port.

## CONFIDENT SECURITY

Data and identity security have to stay top of mind, even for K-12 student devices. The Lenovo Chromebook 100e supplies inside-out protection, starting with Lenovo's built-in hardware security like the webcam privacy shutter. Plus, ChromeOS security provides virus protection, sandboxing, safe browsing, and the Google-designed Titan C security chip. And with regular automatic security updates that happen in the background, students access the latest software without an interruption in learning.

## Experience the power of Chrome Education Upgrade.

As learning evolves, the Lenovo Chromebook 100e Gen 5 with Chrome Education Upgrade empowers administrators to manage their ChromeOS environment to best meet the individual needs of their school, students, and teachers. Chrome Education Upgrade offers device management and 24/7 Google support and guidance at no additional cost.

Reduce costs, improve ROI, and lower student downtime with long-lasting devices that reboot in seconds. Get access to over 600 device policies, fleet oversight capabilities, and managed updates, all from the cloud-based Google Admin console. With ChromeOS automatic background updates, blocked executables, and data controls, you can protect your organization from security threats, maximize productivity, and work in the cloud with confidence.

## Lenovo Services

Lenovo offers a comprehensive portfolio of end-to-end services to support and protect your investment—so you can focus on the job at hand, not IT.

### LENOVO PREMIER SUPPORT

As IT budgets contract, you need to reduce complexity, decrease operational costs, and find ways to increase efficiency from your in-house IT support teams. Lenovo™ Premier Support manages routine support tasks, freeing IT to focus on strategic efforts that move the organization forward. Boost end-user productivity and limit downtime with direct access to elite Lenovo engineers who provide unscripted, advanced hardware and software support.

### ChromeOS ZERO-TOUCH ENROLLMENT

Get the right devices to educators and administrators while securing endpoints, surfacing new cloud-based tools, and managing overburdened help desks. Zero-touch enrollment from Lenovo and Google allows remote deployment and auto-enrollment, shipping devices directly to users.

### ACCIDENTAL DAMAGE PROTECTION (ADP)

Minimize downtime and protect your device from damage not covered under warranty with unlimited repairs in the event of unintentional mishaps. Accidental Damage Protection is performed by Lenovo-trained technicians, using Lenovo Qualified parts and comprehensive diagnostic tools.
