

Lenovo Chromebook 500e 2-in-1 Gen 5

An agile learning tool no matter the setting, the Lenovo Chromebook 500e 2-in-1 Gen 5 delivers impressive versatility at exceptional value for K-12 students. Fueled by Intel® Processor N-Series or MediaTek Kompanio 540 processor and built on the intuitive ChromeOS platform, this convertible empowers students to tackle every assignment with confidence. Because on-the-move learning is standard, this device stands up to every accidental bump, drop, and spill, with industry-leading Lenovo DuraSpec and MIL-SPEC testing.

Choose from two touch display sizes—11.6" or 12.2"—both within the same streamlined chassis design. And the new USI 2.0 stylus¹ with better grip allows for natural interaction with the screen, then securely tucks away when not in use. Other enhanced features boost the UX, including the dual USB-C ports, improved serviceability with customer replaceable unit (CRU) components, and faster connectivity of Wi-Fi and optional 4G LTE. Add the larger 50 Wh battery with up to 16 hours² of unplugged productivity, and the Lenovo Chromebook 500e 2-in-1 is the go-to learning device for on-the-go students.

AGILE LEARNING

Converting from laptop to tablet to tent, the streamlined Lenovo Chromebook 500e 2-in-1 accommodates today's on-the-move students. Starting at just below 3 lbs. for easy portability and available in either an 11.6" or 12.2" touch display with garaged Lenovo USI Pen ² and Pencil Touch technology, this 2-in-1 delivers maximum convenience for everywhere learning. Ample ports, which include two USB-C ports, two USB-A ports, and an HDMI port, allow for even more versatility when additional peripherals are needed. Collaboration is rich and engaging, thanks to the 5MP front-facing camera and crisp Waves Audio. And the larger 50 Wh battery with up to 16 hours² of unplugged performance, along with the new Wi-Fi 7 for faster connectivity, keep students focused on conquering the next lesson, whether at school, at home, or somewhere in between.

RUGGED DURABILITY

Designed and tested to Lenovo DuraSpec and MIL-SPEC standards, the Lenovo Chromebook 500e 2-in-1 endures the bumps, drops, and spills of the hectic school day. In addition to reinforced ports, connectors, and buttons, along with anti-pry keys and new extended rubber feet, this device withstands water spills up to 360 ml, a drop onto concrete at 76 cm, and an A-cover force of 60kg. Students are also protected from online risks, with ChromeOS security that includes sandboxing, safe browsing, and the Google-designed Discrete H1 security chip, along with regular automatic security updates that happen in the background.

ENDURING PERFORMANCE

Repairability and long device life topped the priority list as engineers redesigned this education convertible. Customer replaceable unit (CRU) components, including the battery and replaceable USB-C on the main board, along with the slide-in top-load keyboard with serviceability indicator, take the Lenovo Chromebook 500e 2-in-1 to the top of the class. Because every detail matters, we've included captive screws on the removable battery and just two screws for the top-load keyboard to make for easy repairs.

Experience the power of Chrome Education Upgrade.

As learning evolves, the Lenovo Chromebook 500e Gen 5 with Chrome Education Upgrade empowers administrators to manage their ChromeOS environment to best meet the individual needs of their school, students, and teachers. Chrome Education Upgrade offers device management and 24/7 Google support and guidance at no additional cost.

Reduce costs, improve ROI, and lower student downtime with long-lasting devices that reboot in seconds. Get access to over 600 device policies, fleet oversight capabilities, and managed updates, all from the cloud-based Google Admin console. With ChromeOS automatic background updates, blocked executables, and data controls, you can protect your organization from security threats, maximize productivity, and work in the cloud with confidence.

Lenovo Services

Lenovo offers a comprehensive portfolio of end-to-end services to support and protect your investment—so you can focus on the job at hand, not IT.

LENOVO PREMIER SUPPORT

As IT budgets contract, you need to reduce complexity, decrease operational costs, and find ways to increase efficiency from your in-house IT support teams. Lenovo™ Premier Support manages routine support tasks, freeing IT to focus on strategic efforts that move the organization forward. Boost end-user productivity and limit downtime with direct access to elite Lenovo engineers who provide unscripted, advanced hardware and software support.

ChromeOS ZERO-TOUCH ENROLLMENT

Get the right devices to educators and administrators while securing endpoints, surfacing new cloud-based tools, and managing overburdened help desks. Zero-touch enrollment from Lenovo and Google allows remote deployment and auto-enrollment, and shipping devices directly to users.

ACCIDENTAL DAMAGE PROTECTION (ADP)

Minimize downtime and protect your device from damage not covered under warranty with unlimited repairs in the event of unintentional mishaps. Accidental Damage Protection is performed by Lenovo-trained technicians, using Lenovo Qualified parts and comprehensive diagnostic tools.
