Smarter technology for all

**Lenovo**

Chosen by educators. Trusted by experts.

Today's education organizations face a range of complex security challenges as leaders look toward the future. From proving the value of security spend, to safeguarding students and bringing fragmented systems together for a clearer picture of operations.

Data has never been more important, or sensitive. Which makes security everybody's job. Educators want to breathe more life into learning, not constantly worry about data privacy and protection. At Lenovo, we believe in a better, smarter, and more secure future for students, and educators.

Securing what matters through measurable security outcomes

As an education leader, your challenges are complex and deeply connected. You need more clarity amid ongoing uncertainty while having the kind of agility that makes scaling operations quick, simple, and secure.

You want trust built-in for greater assurance, and you need to accelerate risk-ready transformation. All while reimagining the future of learning to support students' journeys. Lenovo's secure-by-design approach makes this possible, empowering you to do more. Securing data, infrastructure, and devices: so, you're always secure.

Lightning-fast research power

Lenovo ThinkCentre neo Ultra Gen 2

Powered by Intel® Core™ Ultra processors

Why buy?

The ThinkCentre neo Ultra Gen 2 is designed for serious research. Powered by advanced Intel ® Core™ Ultra processors and Intel vPro® technology, it is built to protect critical data, safeguard against threats as they emerge, and make collaboration simple and secure. Advanced AI capabilities automate manual tasks and streamline learning processes for effortless multi-tasking.

Real-time sharing, virtual whiteboards and robust security support protected collaboration.

Lenovo AI streamlines learning, automates manual tasks and summarises lectures for smarter learning.

Smart Connect capabilities enable fast sharing across PCs, phones and tablets even for large research files.

Guard against emerging threats with ThinkShield and Intel security capabilities.

Power through tasks with up to Intel® Wi-Fi 7 (5 Gig)

Intelligent performance perfect for labs

Lenovo ThinkCentre X AIO Aura Edition

Intel® Core™ Ultra X7 Series 3 processor

Why buy?

For lab and library teams that need advanced capabilities and exceptional security, the Lenovo ThinkCentre X AIO Aura Edition brings the power to do more. With the unique Lenovo AI Turbo Engine and Lenovo DeskView and Core Scheduling, it accelerates productivity on even the most data-heavy tasks while ThinkShield security keeps data, research and devices secure.

Premium AI power allocates computing power to reduce processing times and minimize lag

ThinkShield security brings Smart Human Presence Detection for enhanced security

Up to Intel® Wi-Fi® 7 for seamless, secure connectivity everywhere

Do more wherever research leads with Integrated Intel® AI Boost

Next-level collaboration with AI-driven, secure meeting features

Transfer with ease by using Thunderbolt™ with speeds up to 40Gbps

5

Ultimate flexibility for administration offices

Lenovo ThinkCentre neo 50t Gen 6

Powered by up to Intel® Core™ Ultra 7 processors

Why buy?

For education administration professionals who need a business-focused device that brings flexible, adaptable AI power with secure connectivity. The ThinkCentre neo 50t Gen 6 offers complete security with discrete Trusted Platform Module (dTPM 2.0) and built-it ThinkShield Security – powered by Intel. Get complete, reliable connectivity with 9 USB ports, 3 display ports, and up to Wi-Fi 7.

Keep students, admin and data secure with ThinkShield Discrete Trusted Platform Module (dTPM 2.0)

Intel® Core™ Ultra 7 processors support integrated NPU, and an optional dNPU to unleash AI performance

Guard against unauthorised access with Smart Power On capabilities

Empower advanced AI capabilities with Lenovo AI Turbo Engine

Get sustainable, quiet and efficient performance with Energy Star® 92, EPEAT™ Gold, TÜV Ultra Low Noise, and RoHS certifications

Secure data, people and devices with advanced ThinkShield protection

Advanced digital display designed for performance

Lenovo ThinkCentre M90q Gen 6

Powered by up to Intel® Core™ Ultra 9 processors

Why buy?

Bring ideas to life, redefine the way students learn and offer complete flexibility to ensure fast, accurate library services that meet students' needs. Drive performance with Intel vPro® and Intel® Core™ Ultra 9 processor for rapid responsiveness, make fast work of complex tasks and projects. Protect ideas, data and work with ThinkShield and Intel vPro® for end-to-end security control.

Lenovo AI Turbo Engine brings on-device AI-acceleration to power through advanced tasks

Connect up to 4 displays and make the most of dual-channel DDR5 memory and up to 5600 MHz SSD storage

Secure what matters with self-healing BIOS, a dTPM chip, BIOS-based, Smart USB Protection, and a Kensington™ Cable Lock slot

Safeguard your organization against emerging threats with Discrete TPM 2.0, TCG certified, FIPS 140-2 certified security chips and multi-layer Intel vPro® platform security

Make it yours with ThinkCentre Customization (TCC), and a desktop-as-a-service offering for complete flexibility and control

Get the best in energy efficiency and durability with Energy Star 9.0 and TCO 10.0 certifications

Performance security—with all the services you need.

For the complete solution, add Lenovo Configuration Services, Premier Support Plus for 24/7 expert support, Lenovo CO_2 Offset Services to support your climate goals, and Lenovo Asset Recovery Services for recycling that pays.

Empower better, more secure learning in every classroom

Choose Lenovo to help empower your overstretched IT teams with organisation wide security capabilities that earn decision-makers' trust. Protect your data, people, and students from device to cloud with advanced security features that secure what matters.

Speak to us today to discover how Lenovo can equip your classrooms with the security and technology power to drive change.
